City's New Garbage Plan Stirs Heated Pros, Cons

No matter how you look at it, the city's new garbage ordinance appears to be headed for some rough times.

Residents of the city, whose interest in the plan was only lukewarm while the ordinance was going through city council, now seem to be opposed to the proposed system by about two-to-one.

Over a period of several days, The Herald questioned residents of the city at random to obtain a cross-section public view of the new plan, which is being geared to start operating around April 1. Two questions were asked:

"What do you think of the ordinance on the collection and disposal of garbage?"

"How will you handle your garbage when the new system goes into effect?"

THE sidewalk-and-phone survey revealed that council may have given Circleville an ordinance which the local public does not want. At least the opinion samples hint in that direction. At the present time, that is. Nobody can say what the final outcome of the issue will be.

Tabulations showed that 62 percent of those questioned do not look kindly upon the new setup. In fact, some people were vigorous in their protests.

Then too, about 31 percent thought it would be "a good thing". But even among these there were only a few who voiced more than mild approval.

Seven percent said they didn't know much about the new ordinance.

Army Colonel Due To Face Court-Martial

ATLANTA (AP)—A 41-year-old expert on guided missiles at the Army's Redstone Arsenal near Huntsville, Ala., has been ordered tried by court-martial on charges he released secret information to unauthorized persons.

Trial of Col. John Nickerson Jr., a 1938 graduate of West Point, is expected to begin within six weeks at Redstone Arsenal, where he is now restricted.

Lt. Gen. Thomas F. Hickey, commanding general of the 3rd Army, announced the court-martial Monday. Charges were brought against Nickerson Feb. 5.

A 3rd Army spokesman, who declined use of his name, said Nickerson was charged among other things with writing two memorandums critical of Secretary of Defense Wilson and the guided missile policy of the Joint Chiefs.

The spokesman said Army investigation determined that five unauthorized persons received copies of the memorandums and that others might have them in their possession. But the spokesman insisted that none of the memorandums went outside this country.

11 Ohio Highway Projects Receive Engineering Bids

COLUMBUS (AP)—The Ohio Department of Highways today opened bids on 11 state and two county projects totaling more than \$1 million.

Apparent low bidders and the projects included:

Rome Daugherty, Glenford, \$7,686, construction of bridge over Monday Creek, Ward Twp., Hocking County; state estimate \$157,500.

Lester Oeder, Morrow, \$61,188, construction of five large drainage pipe culverts in Green and Washington townships, Clinton County; state estimate, \$73,000.

Vernon Nagel, Napoleon, \$59,912, construction of bridge over Jennings Creek, Van Wert County; state estimate, \$68,000.

Columbus Voters Get 'Time' Issue

COLUMBUS (AP)—Voters will decide whether Columbus will go on Daylight Saving Time this summer.

City Council Monday night voted unanimously to place the question before voters at the May 7 primary. If the city charter amendment is approved, "fast time" will go into effect here May 12.

Council last week approved an ordinance calling for Daylight Saving Time to run from the last Sunday in April to the last Sunday in September. It appears, however, that this ordinance will be blocked by petitions calling for a vote on the issue. The petitions are being circulated by the Independent Theater Owners of Ohio.

nance, or had yet to form an opinion.

Nearly 40 percent of those quizzed said they would not subscribe to the new service, to be handled under an exclusive contract for the city by George Bidinger of Pike County. Bidinger himself has declined to become a part of the growing controversy over the plan he has been hired to operate.

"I've just been hired to do a job," he explains. "That's all I know about it."

APPROXIMATELY 31 percent said they were still undecided as to whether they wanted to sign up with the new collection setup, which is not compulsory — but

Teamster Union Boss Target Of New Pressure

Beck Loses Delegate Job; Probers Seek His Early Testimony

WASHINGTON (AP)—President Dave Beck of the Teamsters Union faced additional pressure today to speed his return to this country for questioning by senators probing labor-management racketeering.

Secretary of Labor Mitchell Monday canceled plans to name Beck as a U. S. delegate to a world labor conference which he said Beck had given "as one reason, among others" for remaining overseas.

Beck had been in line to represent the United States at a transportation conference of the International Labor Organization to open in Hamburg, Germany, next Monday. Beck, on his third trip to Europe in three months, had said he could return by March 28.

Mitchell said replacement of Beck at the conference seems to mean that the Teamsters' boss could return before that date.

Robert F. Kennedy, counsel to the Special Senate Rackets Committee, said he hopes that will be true. He added that Beck will be "given a chance to cooperate" when he does return.

KENNEDY SAID Beck has not yet replied to the committee's request to examine his personal financial records, which Kennedy said cannot be subpoenaed while Beck is out of the country.

There were other developments in the mushrooming investigation by the committee, headed by Sen. McClellan (D-Ark). The committee:

1. Called racketeer James B. Elkins back to its witness stand, under special precautions for his physical safety, to testify about allegations that he and a Western Teamsters Union Official were linked in a questionable real estate deal in Portland, Ore.

2. Announced it plans hearings on what it called "smelly" evidence on what it called "smelly" evidence. New York City after winding up its current hearings on charges that a union-unworld combine from Seattle tried to "muscle in" on rackets in Portland.

Mitchell's announcement concerning Beck came a few hours after he had conferred with McClellan. He said he would ask AFL-CIO President George Meany to suggest another delegate.

Meany had suggested Beck before the Teamsters Union came under active investigation.

British Plane Crash Kills 17

DRAYTON, England (AP)—A British Royal Air Force transport plane crashed into two farm houses near its base today and the Air Ministry announced 17 persons were killed.

Fifteen were airmen and two were occupants of the wrecked dwellings. The 70-ton, four-engine Beverley transport had taken off from the Abingdon RAF base for Malta with 18 men. Three of the airmen escaped with injuries.

Suitor Asks Photo Of Tractor Only

MERCED, Calif. (AP)—Ad in the classified section of the Valley Bomber, Castle Air Force Base newspaper:

"Personal: Bachelor with 40 acres of excellent land would like to make acquaintance of lady with tractor; matrimony in mind. Please send picture of tractor. Box 325476, Atwater."

which carries strict regulations for those who do not join.

Twenty-three percent said they had either signed up for the service or intended to do so.

Under the plan, which was finally approved by council last month, Bidinger will be the only hauler allowed to dump garbage commercially. The contract calls for him to make two pickups a week from residential customers and charge \$1.50 a month for collections. Business district pickups will be negotiated individually, Bidinger said.

The plan apparently will, in effect, sound the death knell for the business of the city's present independent haulers. Estimates of their number range from 15 to 40.

In the course of The Herald's survey, the unfortunate effect of the ordinance on the present haulers was frequently mentioned as reason for opposing the plan. The comment of Frank Arledge, 698 E. Mound St. was typical:

"It's going to put a lot of people out of work who need the money."

This sentiment was echoed by a woman who said:

"Too many poor devils who have been at the business for years will be put out of work. That should not be allowed to happen in this country!"

MANY PEOPLE, even some of those who favored the plan expressed satisfaction with their present hauler. They pointed out that their man comes into the yard for garbage, that they do not have to bundle it, and that scraps of refuse are usually cared for in satisfactory manner.

A number of those questioned (Continued on Page Two)

Wooster Boy Tops OSU Ag Examination

COLUMBUS (AP)—Paul Carson, high school senior from Wooster, received the highest score among 908 who took the annual agricultural competitive scholarship examinations in January, Ohio State University's College of Agriculture announced today.

In addition to Carson, others who won four-year scholarship awards, providing \$50 per quarter applied to university fees, for a total of \$600, were:

Gene Bricker, Rt. 3, Medina; Lewis Meyer, Rt. 2, Amherst; Robert Squire, Rt. 1, Burton; Charles Jentes, Rt. 6, Wooster; Richard Oswald, Leipsic; Harold Knieriem, Rt. 2, Attica; Smythe Van Sickle, Rt. 1, Cardington; Lowell Knieriem, Rt. 1, Elmore; George Ridenour, Rt. 2, Hicksville.

David Yselt, Rt. 1, Minersville; Marilyn Snyder, Logan; Rosa Diehl, Chesterhill; Hugh C. Price, Rt. 3, Newark; Peter Schuele, Rt. 5, Lancaster; George Iden, Bloomingburg; Daniel Gebhart, Rt. 1, Germantown; Thomas Van-turgh, Rt. 1, Eaton; William Settlemyre, Rt. 1, Oregonia; Shel-ton Green, Rt. 2, London.

Probe Is Sought Of Foreign Aides

WASHINGTON (AP)—Robert Morris, counsel to the Senate Internal Security Subcommittee, said the group has asked the State Department to call two foreign service officers back from overseas for questioning.

Morris said Chairman Eastland (D-Miss) told the State Department he wants to question them and another foreign service officer now in Washington "regarding faulty intelligence reports helpful to the Communists."

Names of the foreign service men were not made public.

Eisenhower Talks Dry Climate Trip

WASHINGTON (AP)—President Eisenhower is considering a trip to "a warm, dry climate" to combat a cough which has bothered him since Jan. 21.

Press Secretary James C. Hagerty says that "whether he (Eisenhower) would go to an area like Tucson, Ariz., has been, of course, discussed. But there has been no final decision."

The president's cough is the aftermath of a cold he caught while reviewing his second inaugural parade.

Extra Fund Asked

WASHINGTON (AP)—The Atomic Energy Commission is seeking \$850,000 to construct a metal treatment plant at Fernald, Ohio.

Dulles Says Egypt Stalls On Reopening Suez Canal

Israeli Premier Weathers Storm

JERUSALEM (AP)—Premier David Ben-Gurion today appeared to be weathering a political revolt against his personal decision to order Israeli troops out of the Gaza Strip and the Aqaba area.

Political informants said rebellious parties in the government coalition now were expected to line up with the 70-year-old premier on a vote of confidence after his explanation today to the Knesset (parliament) of his withdrawal order. The rebels' support would ensure endorsement of Ben-Gurion's policy.

An Israeli army spokesman in Tel Aviv said actual withdrawal

of troops from the Gaza area had not yet started, but that it was expected to begin shortly.

A spokesman for the Israeli military governor in Gaza said forces there "are getting everything ready to move just as soon as UNEF comes in." Asked if the Israeli evacuation might start today or Wednesday, he replied, "Not today anyway."

The spokesman said quiet prevailed among the strip's Arab population and that security measures had been tightened against possible anti-Israeli demonstrations.

THERE WAS no word on the start of withdrawal from the Sharm el Sheikh area on the Gulf of Aqaba coast, but a military informant said the evacuation there would be a short operation. He said the withdrawal from the Gaza Strip would require two to three weeks. The pullout from Gaza was expected to be accomplished by stages as the Israelis progressively transferred administration of the strip to U. N. units.

The militant rightwing Herut (Freedom) party called a demonstration in Jerusalem, coinciding with the premier's speech, to protest what it called the government's "disastrous surrender."

News Briefs

Police Patrol Irish Election

DUBLIN (AP)—Armed guards patrolled the Irish Republic's northern border today as the Irish voted in a national election enlivened by a bid from Sinn Fein supporters of terrorism.

Despite the flurry caused by Sinn Fein's entry into the lists, the campaign to choose the new 147-member Dail (parliament) was the quietest since Ireland's 26 southern counties won their independence 35 years ago.

Sinn Fein, political arm of the outlawed Irish Republic Army, advocated violence to end the partition of the six Northern Irish counties which Britain still holds. The extremists appeared to be getting little support, and leaders of all major parties denounced any such resort of violence.

American-born Eamon De Valera, whose Fianna Fail (Men of Destiny) is trying to win a majority and return the former premier to office, declared the partition problem would not be solved by violence.

John A. Costello, 65-year-old lawyer who served as premier the last three years and is running on the Fine Gael (United Ireland) ticket, predicted the extremists would be repudiated.

The election was forced by the resignation of Costello's coalition government after the rise of an economic crisis.

VATICAN CITY (AP)—Pope Pius XII called today for a lenten campaign to get sexy posters and signs advertising movies off the streets and walls of Rome. He also criticized "pornographic periodicals exposed at newsstands, the immoral cinema and even television that penetrates into the intimacy of the home frequently with audacious spectacles."

AUCKLAND, New Zealand (AP)—Sir Anthony Eden has recovered completely from the abdominal inflammation that caused his recent attacks of fever, his doctor said today.

MOSCOW (AP)—Pravda marked the fourth anniversary of Joseph Stalin's death today with praise for the late dictator.

Pravda made no direct mention of the anniversary of Stalin's death. Observance of the anniversaries of the deaths of party leaders was ruled out by the Communist party two years ago.

Two of Martin's daughters suffered a rare blood disease in 1952 and Paula, then 4, had her legs amputated to save her life.

The Martins' oldest daughter, 15-year-old Sally, was stricken at the same time as Paula. The year Paula got wooden legs Sally died of the same disease.

Martin, 43, suffered a cerebral hemorrhage last summer. He died Sunday in a nearby hospital.

Surviving are his widow, Evelyn; a son, Charles, 12; Patty, a twin of Paula; Suzie, 6, and Paula.

U.N. Suspending Its Debate On Middle Eastern Problem

UNITED NATIONS, N. Y. (AP)—Faced with widely divergent views over steps to be taken in Gaza and the Gulf of Aqaba areas after Israel withdraws, the U. N. General Assembly suspended its debate today to await developments.

No date was fixed, but the Assembly is expected to convene later this week to hear a report from U. N. Secretary General Dag Hammarskjöld.

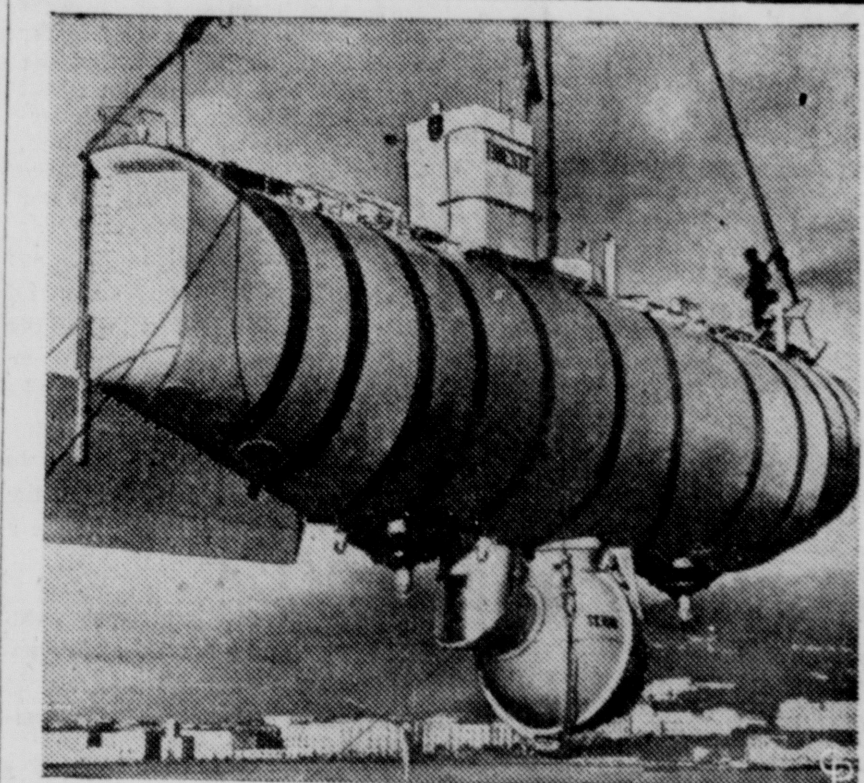

The Gulf of Aqaba as demanded by Israel and upheld by the United States and other powers.

2. The eventual administration of the Gaza Strip and its 300,000 Arabs, two thirds of them Palestine refugees living on U. N. relief.

BRITAIN, ITALY, the Netherlands and Belgium were among the maritime powers lining up in the Assembly with the United States in contending that the Strait of Tiran is an international waterway through which Israel is entitled to free passage.

An Israeli delegation source said that his country in its negotiations in recent weeks, especially in Washington, had achieved "very close to the guarantee" of free passage which Israel sought.

1. The right of free passage through the Strait of Tiran into

DESIGNED FOR RESEARCH at great ocean depths is the Bathyscaphe Trieste shown here at a Mediterranean port. The submersible craft was designed by Auguste Piccard and his son, Jacques, and will make a series of dives under a contract with the United States Navy. The Piccards have long been known for undersea exploration.

Lowery Lane Water Extension Ordinance Will Request \$4,000

City council tonight will be asked to approve the leadoff step in another new effort aimed at a much-discussed goal—city water for the Lowery Lane area on the corporation's southern edge.

City Solicitor Kenneth Robbins said he plans to submit an ordinance under which the city would approve allocation of \$4,000 for the proposed water line extensions. At council's meeting on Feb. 19, Public Utilities Manager Ervin Leist estimated the work would cost at least that much.

Council turned its attention again to the feasibility of getting city water into the Lowerytown neighborhood — which is privately owned—after church group leaders outlined a plan to have a small mission church built in that vicinity. As part of the general program of self betterment expected to center around the religious gathering place, council was asked to try again to give the area its own water supply.

Water for residents of the locality is now drawn from nearby wells.

CITY OFFICIALS in the past claimed that private property owners have blocked extension of the water lines by refusing to grant necessary easements. In view of the church mission project, City Solicitor Robbins said he personally would undertake the task of obtaining the needed easements.

He added, however, he has not as yet made new attempts along this line, pending council's approval of funds for the water lines.

At its Feb. 19 session, council voted to delay third reading of an ordinance that would boost natural gas rates in Circleville. The rate ordinance was placed before the lawmakers by the Ohio Fuel Gas Company.

Gas company officials said the delay in final action falls in

Talbot's Ashes Being Returned

NEW YORK (AP)—Several high government officials attended funeral services Monday for former Secretary of the Air Force Harold E. Talbot.

Talbot, who held his Air Force post from 1953 to 1955, died Saturday in West Palm Beach, Fla., at the age of 68. A bronze urn, containing the ashes of Talbot, is to be placed in the family vault today at Dayton, Ohio, his birthplace.

Carrier Pigeons To Be Discharged

FT. MONMOUTH, N. J. (AP)—The Army is going to sell the last of its carrier pigeons March 23 but not 15 feathered heroes of World War II.

They will be given to various zoos and institutions throughout the United States. Only 1,000 of the birds remain, now declared outmoded by electronic communications.

But America To Resume Aid To Mideast

State Secretary Sees Waterway Use Possible Within About 10 Days

WASHINGTON (AP)—Secretary of State Dulles said today that Egypt has tended to drag its feet on arrangements to open the Suez Canal before all Israeli troops are out of the country.

In the light of Israel's weekend withdrawal decision, Dulles said he hopes Egypt will now end its foot dragging very quickly. He estimated the canal could be opened in 10 days.

Answering questions at a news conference, Dulles also said a ship flying the United States flag should be going into the Gulf of Aqaba some time soon, although he called that a matter for the shipping companies to decide.

Meanwhile, American officials are making plans to unfreeze aid to the embattled Middle East this month in a further effort to restore tranquility there.

All aid programs in the immediate area were necessarily suspended last fall when the British-French-Israeli attack on Egypt forced the recall of 199 foreign aid officials, together with their families, to avoid injury.

That left nobody in the area to administer the aid programs under way in Israel, Egypt and Lebanon.

Officials said today orders to return to their posts will go out to these 199 experts sometime this month, presumably as soon as Israeli troops complete withdrawal from Gaza and Sharm el Sheikh, and the last sunken ship is cleared from the channel of the Suez Canal.

Congress has appropriated \$750 million for military and economic aid in the Middle East during the fiscal year ending next June 30. President Eisenhower has an additional \$100 million to use as he sees fit.

AWAITING congressional approval is Eisenhower's request for a freer hand in spending \$200 million of available funds in the area.

Israel has pending a request for U. S. arms, as well as an application for a \$75 million Export-Import Bank loan for irrigation.

Mayor Urges 4-Fs Be Assigned To CD

WASHINGTON (AP)—A spokesman for mayors across the country suggested today that the "4-Fs" rejected from military service be pressed into Civil Defense work.

Baltimore Mayor Thomas D'Alesandro Jr. broached this idea before a House Government Operations Subcommittee.

Speaking as chairman of the U. S. Conference of Mayors' standing committee on legislation, D'Alesandro said the 4-Fs "could well discharge their civic responsibility in that manner and not be completely excused therefrom as under the present system. Some recompense should be provided from federal funds, while so serving."

Heart Attack Good For Those At 100?

CINCINNATI (AP)—Dr. Paul Dudley White says increased heart disease might be good "if it could come at such an advanced age of, say, 100 or 110 after a full, healthy, happy and active life, free from disease."

The Boston heart specialist said Monday night that "a sudden cardiac death would then mean the abolition of all infections, cancer, accidents and wars."

But he told an audience at the Cincinnati Academy of Medicine's centennial meeting that many people under age 65 still die or are disabled by heart ailments.

New Charters Dip

COLUMBUS (AP)—New business incorporations in Ohio last month totaled 654 compared to 741 in February of 1956, the secretary of state reports.

Farm Disaster Plan Offered

Ike Seeking Greater Aid From States

WASHINGTON (AP)—President Eisenhower proposed today that state and local governments pay more of the cost of programs for relief of drought and other farm disasters.

Present federal aid would be continued and expanded.

In a special message to Congress on agricultural disasters, Eisenhower urged prompt congressional consideration of proposals for cost-sharing and for some expansion and other changes in present programs.

Details were suggested by Secretary of Agriculture Benson in an accompanying letter.

Benson said the administration will offer a bill which would require affected states to pay at least 25 percent of the cost of such programs in their states.

A spokesman said states have been contributing less than 1 percent.

Neither the President nor other officials gave an estimate of the total cost of disaster programs for the coming year.

Nixon Says Ghana Won't Be Neutral

ACCRA, Gold Coast (AP)—Vice President Nixon predicts the new nation of Ghana "will be national but not neutral" after it achieves independence Wednesday.

After a private meeting with Prime Minister Kwame Nkrumah, Nixon said the U. S. - educated Gold Coast leader told him: "We can never be neutral."

Nixon told a news conference Ghana, a British Commonwealth nation formed from the Gold Coast and Togoland, will "force policies which under no circumstances will accept foreign domination from any quarter."

Lung Cancer Kills Cancer Specialist

ST. LOUIS (AP)—Dr. Everts A. Graham, famous internationally for his work on lung cancer, died Monday of lung cancer.

The 73-year-old surgeon had retired in 1951 but continued his research work. It was not determined until six weeks ago that he had lung cancer.

Dr. Graham insisted there is a link between it and cigarette smoking. He had smoked cigarettes, but almost none in the last ten years.

Eisenhower Talks Dry Climate Trip

WASHINGTON (AP)—President Eisenhower is considering a trip to "a warm, dry climate" to combat a cough which has bothered him since Jan. 21.

Press Secretary James C. Hagerty says that "whether he (Eisenhower) would go to an area like Tucson, Ariz., has been, of course, discussed. But there has been no final decision."

The president's cough is the aftermath of a cold he caught while reviewing his second inaugural parade.

Extra Fund Asked

WASHINGTON (AP)—The Atomic Energy Commission is seeking \$850,000 to construct a metal treatment plant at Fernald, Ohio.

Dulles Says Egypt Stalls On Reopening Suez Canal

Israeli Premier Weathers Storm

JERUSALEM (AP)—Premier David Ben-Gurion today appeared to be weathering a political revolt against his personal decision to order Israeli troops out of the Gaza Strip and the Aqaba area.

Political informants said rebellious parties in the government coalition now were expected to line up with the 70-year-old premier on a vote of confidence after his explanation today to the Knesset (parliament) of his withdrawal order. The rebels' support would ensure endorsement of Ben-Gurion's policy.

An Israeli army spokesman in Tel Aviv said actual withdrawal of troops from the Gaza area had not yet started, but that it was expected to begin shortly.

A spokesman for the Israeli military governor in Gaza said forces there "are getting everything ready to move just as soon as UNEF comes in." Asked if the Israeli evacuation might start today or Wednesday, he replied, "Not today anyway."

The spokesman said quiet prevailed among the strip's Arab population and that security measures had been tightened against possible anti-Israeli demonstrations.

THERE WAS no word on the start of withdrawal from the Sharm el Sheikh area on the Gulf of Aqaba coast, but a military informant said the evacuation there would be a short operation. He said the withdrawal from the Gaza Strip would require two to three weeks. The pullout from Gaza was expected to be accomplished by stages as the Israelis progressively transferred administration of the strip to U. N. units.

The militant rightwing Herut (Freedom) party called a demonstration in Jerusalem, coinciding with the premier's speech, to protest what it called the government's "disastrous surrender."

Despite the flurry caused by Sinn Fein's entry into the lists, the campaign to choose the new 147-member Dail (parliament) was the quietest since Ireland's 26 southern counties won their independence 35 years ago.

Sinn Fein, political arm of the outlawed Irish Republic Army, advocated violence to end the partition of the six Northern Irish counties which Britain still holds. The extremists appeared to be getting little support, and leaders of all major parties denounced any such resort of violence.

American-born Eamon De Valera, whose Fianna Fail (Men of Destiny) is trying to win a majority and return the former premier to office, declared the partition problem would not be solved by violence.

John A. Costello, 65-year-old lawyer who served as premier the last three years and is running on the Fine Gael (United Ireland) ticket, predicted the extremists would be repudiated.

The election was forced by the resignation of Costello's coalition government after the rise of an economic crisis.

VATICAN CITY (AP)—Pope Pius XII called today for a lenten campaign to get sexy posters and signs advertising movies off the streets and walls of Rome. He also criticized "pornographic periodicals exposed at newsstands, the immoral cinema and even television that penetrates into the intimacy of the home frequently with audacious spectacles."

AUCKLAND, New Zealand (AP)—Sir Anthony Eden has recovered completely from the abdominal inflammation that caused his recent attacks of fever, his doctor said today.

MOSCOW (AP)—Pravda marked the fourth anniversary of Joseph Stalin's death today with praise for the late dictator.

Pravda made no direct mention of the anniversary of Stalin's death. Observance of the anniversaries of the deaths of party leaders was ruled out by the Communist party two years ago.

UNITED NATIONS, N. Y. (AP)—Faced with widely divergent views over steps to be taken in Gaza and the Gulf of Aqaba areas after Israel withdraws, the U. N. General Assembly suspended its debate today to await developments.

No date was fixed, but the Assembly is expected to convene later this week to hear a report from U. N. Secretary General Dag Hammarskjöld.

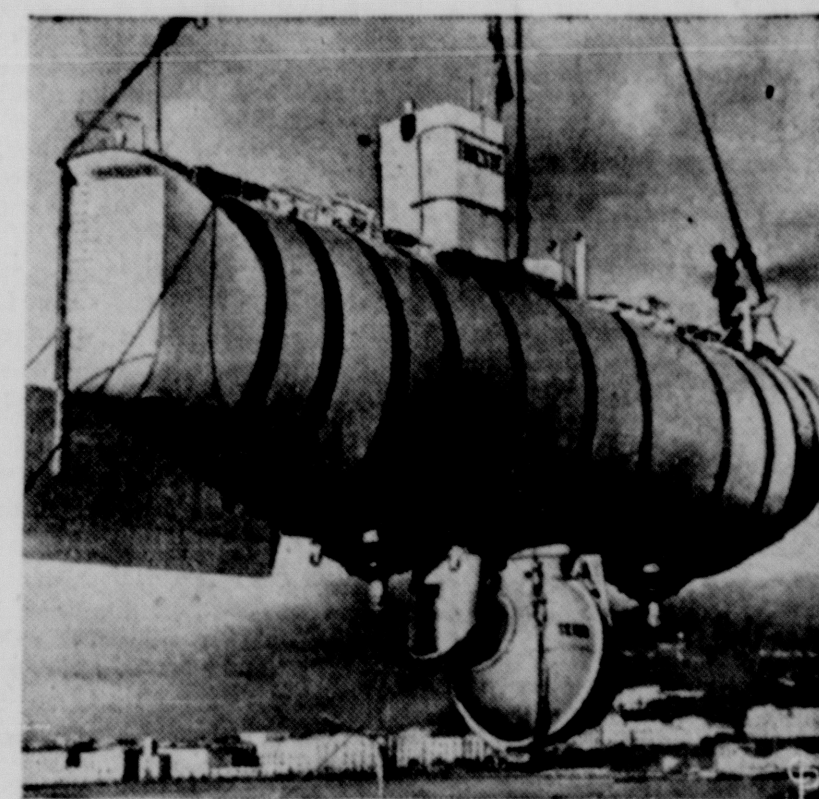

No opposition was expressed to the temporary takeover of the Gaza Strip and the Gulf of Aqaba area by the U. N. Emergency Force. But there was widespread difference of opinion on these two questions:

1. The right of free passage through the Strait of Tiran into the Gulf of Aqaba as demanded by Israel and upheld by the United States and other powers.

2. The eventual administration of the Gaza Strip and its 300,000 Arabs, two thirds of them Palestine refugees living on U. N. relief.

BRITAIN, ITALY, the Netherlands and Belgium were among the maritime powers lining up in the Assembly with the United States in contending that the Strait of Tiran is an international waterway through which Israel is entitled to free passage.

An Israeli delegation source said that his country in its negotiations in recent weeks, especially in Washington, had achieved "very close to the guarantee" of free passage which Israel sought.

DESIGNED FOR RESEARCH at great ocean depths is the Bathyscaphe Trieste shown here at a Mediterranean port. The submersible craft was designed by Auguste Piccard and his son, Jacques, and will make a series of dives under a contract with the United States Navy. The Piccards have long been known for undersea exploration.

Lowery Lane Water Extension Ordinance Will Request \$4,000

City council tonight will be asked to approve the leadoff step in another new effort aimed at a much-discussed goal—city water for the Lowery Lane area on the corporation's southern edge.

City Solicitor Kenneth Robbins said he plans to submit an ordinance under which the city would approve allocation of \$4,000 for the proposed water line extensions. At council's meeting on Feb. 19, Public Utilities Manager Ervin Leist estimated the work would cost at least that much.

Council turned its attention again to the feasibility of getting city water into the Lowertown neighborhood—which is privately owned—after church group leaders outlined a plan to have a small mission church built in that vicinity. As part of the general program of self betterment expected to center around the religious gathering place, council was asked to try again to give the area its own water supply.

Water for residents of the locality is now drawn from nearby wells.

CITY OFFICIALS in the past claimed that private property owners have blocked extension of the water lines by refusing to grant necessary easements. In view of the church mission project, City Solicitor Robbins said he personally would undertake the task of obtaining the needed easements.

He added, however, he has not as yet made new attempts along this line, pending council's approval of funds for the water lines.

At its Feb. 19 session, council voted to delay third reading of an ordinance that would boost natural gas rates in Circleville. The rate ordinance was placed before the lawmakers by the Ohio Fuel Gas Company.

Gas company officials said the delay in final action falls in line with the company's policy.

Talbot's Ashes Being Returned

NEW YORK (AP)—Several high government officials attended funeral services Monday for former Secretary of the Air Force Harold E. Talbot.

Talbot, who held his Air Force post from 1953 to 1955, died Saturday in West Palm Beach, Fla., at the age of 68. A bronze urn, containing the ashes of Talbot, is to be placed in the family vault today at Dayton, Ohio, his birthplace.

Talbot, who held his Air Force post from 1953 to 1955, died Saturday in West Palm Beach, Fla., at the age of 68. A bronze urn, containing the ashes of Talbot, is to be placed in the family vault today at Dayton, Ohio, his birthplace.

But America To Resume Aid To Mideast

State Secretary Sees Waterway Use Possible Within About 10 Days

WASHINGTON (AP)—Secretary of State Dulles said today that Egypt has tended to drag its feet on arrangements to open the Suez Canal before all Israeli troops are out of the country.

In the light of Israel's weekend withdrawal decision, Dulles said he hopes Egypt will now end its foot dragging very quickly. He estimated the canal could be opened in 10 days.

Answering questions at a news conference, Dulles also said a ship flying the United States flag should be going into the Gulf of Aqaba some time soon, although he called that a matter for the shipping companies to decide.

Meanwhile, American officials are making plans to unfreeze aid to the embattled Middle East this month in a further effort to restore tranquility there.

All aid programs in the immediate area were necessarily suspended last fall when the British-French-Israeli attack on Egypt forced the recall of 199 foreign aid officials, together with their families, to avoid injury.

That left nobody in the area to administer the aid programs under way in Israel, Egypt and Lebanon.

Officials said today orders to return to their posts will go out to these 199 experts sometime this month, presumably as soon as Israeli troops complete withdrawal from Gaza and Sharm el Sheikh, and the last sunken ship is cleared from the channel of the Suez Canal.

Congress has appropriated \$750 million for military and economic aid in the Middle East during the fiscal year ending next June 30. President Eisenhower has an additional \$100 million to use as he sees fit.

AWAITING congressional approval is Eisenhower's request for a freer hand in spending \$200 million of available funds in the area.

Israel has pending a request for U. S. arms, as well as an application for a \$75 million Export-Import Bank loan for irrigation.

Speaking as chairman of the U. S. Conference of Mayors' standing committee on legislation, D'Alessandro said the 4-Fs "could well discharge their civic responsibility in that manner and not be completely excused therefrom as under the present system. Some recompense should be provided from federal funds, while so serving."

Baltimore Mayor Thomas D'Alessandro Jr. broached this idea before a House Government Operations Subcommittee.

New Committee Opposes More Jobless Benefits

Williamsport Leader Is Listed Among Group's Officials

Legislation now pending in the Ohio legislature to legalize supplemental unemployment benefits will be opposed by a newly organized Ohio Information Committee, it was announced in Columbus yesterday.

John H. Dunlap of Williamsport, a prominent Pickaway County farm owner and manager, is treasurer of the newly formed group.

Leaders of the new committee were all active members of the original organization of that name which, in 1955, fought and defeated the CIO-sponsored initiative petition to legalize supplemental unemployment benefits in Ohio. That proposal was defeated by over 600,000 votes in a bitterly contested state-wide campaign in which the CIO proposal had the solid opposition of the press, business, industry and agriculture.

The original Ohio Information Committee, organized by trade associations, terminated its activities in 1956.

TOP OFFICIALS of the new Ohio Information Committee, in addition to Dunlap are:

Chairman, G. E. O'Brien of Greenville, executive secretary of the Ohio Grain and Feed Dealers Association, which last week in state convention adopted a resolution opposing supplemental unemployment benefits.

Executive Committee: J. C. Shouvin, Springfield industrialist; C. A. Corbett, Salem manufacturer; John A. Lloyd, Jr., Cincinnati attorney; and Dean Phillips, Columbus industrialist.

The executive secretary is Fred J. Milligan, Columbus attorney and former state director of commerce, who was executive secretary of the original Ohio Information Committee in 1955.

Three Injured In Darby Twp. Auto Accident

Three Derby youths were injured about 7:05 p. m. yesterday when a car in which they were riding went over an embankment near the intersection of state route 763 and the Harrisburg-Darbyville Rd., about 23 miles northwest of Circleville.

Pickaway County Deputy Sheriff Bob Hoover said the driver of the car, Joe Fitzgerald, 17, received a possible fracture of the left arm, possible rib fractures and minor cuts and bruises. James Harper, 16, a passenger in the car, suffered shock and a bruised chest. Robert Harris, 14, also a passenger, suffered a severe facial injury, a fractured left wrist, possible head injuries and minor cuts and bruises.

All three youths were taken to Mt. Carmel Hospital in Columbus by Norris Ambulance of Grove City. Fitzgerald and Harper were treated and released. Harris' condition was reported as "fair" this morning.

According to sheriff's deputies the youths were proceeding southeast on Route 762. When they attempted to make a right turn into the Harrisburg-Darbyville Rd. the brakes apparently failed and the car continued across the road, struck a wire guard and spun over a 30 foot embankment, landing in a ravine below the highway. The car was completely demolished.

The accident was also investigated by special Deputy Sheriff James Sealock.

MARKETS

CIRCLEVILLE HOG MARKET
Hog prices, all net, were reported by the Pickaway Livestock Co-op Association here today as follows:

190-220 lbs., \$16.75; 220-240 lbs., \$16.35; 240-260 lbs., \$16.10; 260-280 lbs., \$15.60; 280-300 lbs., \$15.10; 300-350 lbs., \$14.60; 350-400 lbs., \$14.10; 160-180 lbs., \$15.25; 180-190 lbs., \$16.35. Sows, \$15.50 down. Stags and boars, \$10.50 down.

OHIO CASH GRAIN
COLUMBUS, Ohio (AP) — Ohio Dept. of Agri. cash grain prices: No 1 red wheat, unchanged to mostly one cent lower, 2.12-2.15; No 2 yellow ear corn, mostly unchanged to 2 cents higher, 1.68-1.76 per 100 lbs or 1.18-1.23 per bu; No 2 oats, unchanged, .70-.75; No 1 yellow soybeans, mostly unchanged to one cent higher, 2.24-2.27.

Corn 1.19
Oats75
Beans 2.20

City Officials, County Agree On Fund Cut

Circleville city officials apparently have patched up their differences with the Pickaway County Budget Commission.

A quiet armistice has been declared, Pickaway County Prosecutor William Ammer revealed today, in the argument over the city's share of the local government fund, distributed by the county to the various sub-divisions.

Ammer said the city has withdrawn its action before the State Board of Tax Appeals. The city, after a long series of local protests, had filed an appeal to get a larger share of the local government fund.

Before action was taken at the state level, however, agreement was reached in city-county conferences here.

Settlement was reached, Ammer said, after the budget commission agreed to give the city an additional \$1,000. This would mean, he explained, that the city this year will get about \$12,400 from the fund if legislative appropriations for the fund — through sales tax money — run about the same as they did last year.

Area Attorneys To Attend State Bar Conference

All attorneys and judges from Delaware, Franklin and Pickaway counties have been invited to attend the district seven meeting of the Ohio State Bar Association, to be held at the Neil House in Columbus, Wednesday.

County Prosecutor William Ammer, and City Solicitor Kenneth Robbins are among a number of Pickaway attorneys who will be in attendance.

Attorney Byron E. Ford of Columbus, state bar executive committee member for the district, will preside over the meeting. The afternoon session will feature a panel discussion concerning various aspects of professional fees.

Attorney Frank C. Dunbar Jr. of Columbus will serve as moderator for the panel, which will be composed of Attorneys John W. Bebout of Toledo, Ray W. Davis of Circleville and Wayne B. McLeskey of Columbus. An election for a member of the state bar's executive committee and for three members of the council of delegates will be held.

ATTORNEY EARL F. MORRIS of Columbus, president of the state bar, will welcome and briefly outline the association's program to all in attendance.

Guest speaker at the evening banquet will be the immediate past president of the state bar, Attorney Fred A. Smith of Toledo.

Doctor Ordered To Reveal Findings

TOLEDO (AP)—The Sixth District Court of Appeals has ruled a doctor can be compelled to reveal his findings in a physical examination prior to a damage suit trial.

That set aside an earlier decision in which Dr. George B. Bates of Toledo was released from a contempt citation.

The test case was an aftermath to a damage suit against Community Traction Co. in which Dr. Bates examined the plaintiff, who had claimed injuries.

The doctor and George Ruley, attorney for the traction company, refused to disclose the results of the examination to the attorney for the plaintiff.

The European brown bear has been known since the days of the Roman empire. Nearly every zoo in the world contains such a bear.

New Garbage Plan Arouses Pros And Cons

(Continued from Page One)

also claimed the new system will be more expensive. One man said he's getting a good job done for \$1 a month now and does not see any reason why he should have to pay \$1.50 a month. An E. Main St. woman who lives alone said:

"There are too many widows around to require tying up garbage and then having to haul it out to the sidewalk."

Miss Ina Klingensmith of 382 E. Franklin St. said that during the winter she does not have garbage regularly, and when she does she phones her present hauler who makes a pickup for 50 or 75 cents. She estimated she has only had to call him about three times since last fall. Under the new plan, she estimated, she would have to pay three times as much for the winter garbage collection.

Other objections voiced included: "I don't think the city should have gone out of town with the contract. A local man should have gotten it, even if he wasn't low bidder."

"It will be a terrible thing to have the garbage cans out on the sidewalks. It will certainly make a beautiful city!"

PERHAPS the sharpest comment was made by H. E. Valentine of 219 Walnut St. who said in regard to the passage of the ordinance:

"Council should be under a guardian!"

Among those who favored the new plan, irregular collection was the reason most often given. A typical complaint was:

"Some of these haulers can't be depended upon, they will collect one week, but not the next." Another man said:

"Present haulers are unreliable and have to be picked up after. Sometimes they drop things on the street and then it has to be cleaned up. When you tell them about it, they get mad."

Efficiency was also mentioned as a benefit to be derived from the new plan. One supporter of the ordinance said:

"At least they'll be a system to this thing for a change. It has worked well in other cities, it should work well here."

IN ANSWER to the question of what they intended to do with their garbage once the plan takes effect, a number of those expressing disapproval of the ordinance heatedly said they would take care of their own garbage before they would hire someone they didn't want. A Watt St. man announced:

"I'm going to put in a garbage disposal and incinerate my own stuff in a back yard grill. I'll be able to take care of everything except tin cans, and I'll get rid of those if I have to bury them."

A different idea was put forth by Mrs. A. J. Lyle of 154 W. Mount St. She said that she might make a compost pile of the garbage and use it as garden fertilizer.

There's more than one thing you can do with garbage," she added.

Still another man, a Reber Ave. resident, ominously warned, "You'll see a lot of dumping along side the highways if this plan goes through. People aren't going to be told whom they can hire and whom they can't."

Amidst the disagreement on the garbage plan, at least one resident was willing to take what might be termed the broad view. Mrs. Lucy Groom of 561 E. Main St. said:

"IT WILL be too expensive for me. I hate to give up my present collector and I'm not sure what I'll do yet, but I think it will be a fine thing for the city."

Whatever is done, one thing is certain, it won't be unanimous.

Mainly About People

ONE MINUTE PULPIT

Commit thy way unto the Lord, trust also in him, and he will bring it to pass.—Psalm 37:5. Faith is the channel that brings infinite power to our aid. Faith and love.

Curtis Reid of Circleville Route 3 was admitted Monday to Berger Hospital as a medical patient.

Class of '59 at Mt. Sterling high school will sponsor a 50-50 dance in the school gymnasium Friday March 8 from 8:30 to 11:30 p. m. Al Longstreth's orchestra will furnish the music.

Charles Wilson of Tarlton is a medical patient in Berger Hospital. He was admitted Monday.

Harry Montelius of Circleville Route 1 was admitted Monday to Berger Hospital as a surgical patient.

There will be a card party in the K of P hall Tuesday March 5 starting at 8 p. m.

Mrs. Howard Courtney and daughter of 322 Mingo St. were released from Berger Hospital Monday.

Lewis Fohl of 130 N. Pickaway St., a patient at Berger Hospital, was transferred Monday to University Hospital, Columbus.

Mrs. James Kuhn and daughter of Columbus were released Tuesday from Berger Hospital.

Dancing (round and square) Wednesday, March 6 from 8 to 11. Circle D Recreation, 144 E. Main St. Clay Eager will call for square dancing with the "Hometowners" and Buddy Ross. Tickets will be sold at the door and may be purchased from any Legionnaire.—ad.

Mrs. F. R. Woods is a surgical patient in White Cross Hospital, Columbus. Her room number is 113.

Miss Beverly Knecht is now associated with the Mary-Lowell beauty Salon, specializing in all types of beauty culture. Phone 835 for appointment.

Ashville Residents Conduct Activity At Dart Ball Banquet

Several persons from Ashville took part in the annual Franklin County Lutheran dart ball league banquet held in St. Mark Lutheran Church, Columbus.

Ed Irwin served as toastmaster and the Rev. Werner Stuck conducted devotionals. Merritt Landig sang a selection of songs.

Guest speaker for the evening was Prof. Earl C. Metz of the Capital University school of education. A trophy was presented to Howard Billman of the Grove City team which won this year's championship.

What Can The Joy Of Outdoors Mean To An Unwanted Puppier?

All around the town these days they're talking of the city's Summertime dog law, and how — for the sake of the flowers, the gardens and the bright green lawns — the pets must restrict their roaming until Fall comes again.

The pets, the city ordinance warns, can be legally off their home premises only in the company of their owner or custodian.

For a lot of dogs with wanderlust, of course, that's a rule of strict restraint in this season of outdoor fun. But for one at least, none of it has any meaning.

Troubled and unwanted, a six-months old collie pup is putting in his time at the end of the trail for all the local dogs nobody claims as their own. Dog Warden Ralph Wallace told how a Circleville woman turned the pup over to him

a few days ago, explaining sadly why she isn't in a position to give the pedigreed animal the care it needs.

"I'LL KEEP him until Wednesday," Wallace said. "As far as I know nobody wants him. But he's a pretty dog. Mighty pretty, I think."

"It's just one of those rough cases you hear about. And this one seems especially to be a tough luck deal."

The "tough luck" pup, as far as anybody seems to know, never had a real name. Far too often in this loud and hurried world, you see, we don't bother to name puppies unless they're wanted.

And nobody wants the "tough luck" pup. Very likely, nobody ever will. The "tough luck" pup is blind.

Washington CH Will Remain In South Central Ohio League

Washington C. H. High School officials have announced that the Blue Lion school plans to remain in the old South Central Ohio League.

After taking all but the final step in joining a new Mid-Eight loop, Washington officials switched their decision in favor of staying with the SCOL, which is now in the process of being enlarged.

School heads at Washington said the decision was based on the fact that the SCOL has now been enlarged to seven teams and it is expected that an eighth will be added within the next two years.

Washington's original decision to join a new league was caused, in part by the difficulty encountered in scheduling games in a loop that was comprised of only five teams — Circleville, Hillsboro, Greenfield, Wilmington and Washington.

AS IT stands now, the SCOL will start the 1958 football season with all the old teams, plus Franklin Heights and a new unnamed high school now under construction near Columbus. Franklin Heights, a new school, is located west of Columbus.

Although it is hoped that an eighth school will be added to the loop in the near future, there has been no definite mention which school it will be. Reports indicate that it might be another new school in the Columbus area.

The athletic board at Washington pointed out that by remaining in the SCOL, the school would be about the center point as far as

Supersonic Bomber Hard To Observe

WASHINGTON — The world's first known supersonic bomber, the Convair B58, travels so swiftly the fastest Air Force fighter is used as a "chase" airplane for observation.

The B58 Hustler, first flown last November, has considerably exceeded the speed of sound—about 760 miles an hour at sea level—in test flights.

A Convair official confirmed that the fastest fighter, an F104, has been added to the fleet of planes employed to make observations during B58 flights.

Local Kiwanians Enjoy Color Films On Water Sports

Jim Fortney, boat dealer from Harrisburg, presented films of water skiing and fishing during a Kiwanis Club meeting held last night in the Mecca restaurant.

The films, in technicolor, dealt with the fundamentals of both water sports and the great amount of enjoyment derived from them.

Hal Dickinson, local hardware store owner, was a guest for the evening.

Kiwanian Bob Clark won an electric clock in an attendance drawing held at the close of the meeting.

AUCTION

The annual Saltcreek P.T.O. Community Auction will be held at the school on

Saturday, March 9

Beginning Promptly At 10 A.M.

To be sold will be farm machinery, posts, lawn mowers, farm animals and pets, electric heater, hay, popcorn, screen doors, play pen, antique mortar and pestle, coffee table, household furnishings, clothing for children and adults, dishes, canned goods, cakes and pies and many other articles.

ALSO TO BE SOLD ANTIQUE DOUBLE SCHOOL DESKS FORMERLY USED IN THE OLD TARLTON SCHOOL

Lunch Will Be Served By The P.T.O.

New Committee Opposes More Jobless Benefits

Williamsport Leader Is Listed Among Group's Officials

Legislation now pending in the Ohio legislature to legalize supplemental unemployment benefits will be opposed by a newly organized Ohio Information Committee, it was announced in Columbus yesterday.

John H. Dunlap of Williamsport, a prominent Pickaway County farm owner and manager, is treasurer of the newly formed group.

Leaders of the new committee were all active members of the original organization of that name which, in 1955, fought and defeated the CIO-sponsored initiative petition to legalize supplemental unemployment benefits in Ohio. That proposal was defeated by over 600,000 votes in a bitterly contested state-wide campaign in which the CIO proposal had the solid opposition of the press, business, industry and agriculture.

The original Ohio Information Committee, organized by trade associations, terminated its activities in 1956.

TOP OFFICIALS of the new Ohio Information Committee, in addition to Dunlap are:

Chairman, G. E. O'Brien of Greenville, executive secretary of the Ohio Grain and Feed Dealers Association, which last week in state convention adopted a resolution opposing supplemental unemployment benefits.

Executive Committee: J. C. Shouvin, Springfield industrialist; C. A. Corbett, Salem manufacturer; John A. Lloyd, Jr., Cincinnati attorney, and Dean Phillips, Columbus industrialist.

The executive secretary is Fred J. Milligan, Columbus attorney and former state director of commerce, who was executive secretary of the original Ohio Information Committee in 1955.

Three Injured In Darby Twp. Auto Accident

Three Derby youths were injured about 7:05 p. m. yesterday when a car in which they were riding went over an embankment near the intersection of state route 763 and the Harrisburg-Darbyville Rd., about 23 miles northwest of Circleville.

Pickaway County Deputy Sheriff Bob Hoover said the driver of the car, Joe Fitzgerald, 17, received a possible fracture of the left arm, possible rib fractures and minor cuts and bruises. James Harper, 16, a passenger in the car, suffered shock and a bruised chest. Robert Harris, 14, also a passenger, suffered a severe facial injury, a fractured left wrist, possible head injuries and minor cuts and bruises.

All three youths were taken to Mt. Carmel Hospital in Columbus by Norris Ambulance of Grove City. Fitzgerald and Harper were treated and released. Harris' condition was reported as "fair" this morning.

According to sheriff's deputies the youths were proceeding southeast on Route 762. When they attempted to make a right turn into the Harrisburg-Darbyville Rd. the brakes apparently failed and the car continued across the road, struck a wire guard and spun over a 30 foot embankment, landing in a ravine below the highway. The car was completely demolished.

The accident was also investigated by special Deputy Sheriff James Sealock.

MARKETS

CIRCLEVILLE HOG MARKET
Hog prices, all net, were reported by the Pickaway Livestock Co-op Association here today as follows:

190-220 lbs., \$16.75; 220-240 lbs., \$16.35; 240-260 lbs., \$16.10; 260-280 lbs., \$15.60; 280-300 lbs., \$15.10; 300-350 lbs., \$14.60; 350-400 lbs., \$14.10; 160-180 lbs., \$15.25; 180-190 lbs., \$16.35. Sows, \$15.50 down. Stags and boars, \$10.50 down.

Old Roosters .09

CIRCLEVILLE CASH GRAIN PRICES
Wheat .210
Corn .119
Oats .38
Beans .220

City Officials, County Agree On Fund Cut

Circleville city officials apparently have patched up their differences with the Pickaway County Budget Commission.

A quiet truce has been declared, Pickaway County Prosecutor William Ammer revealed today, in the argument over the city's share of the local government fund, distributed by the county to the various sub-divisions.

Ammer said the city has withdrawn its action before the State Board of Tax Appeals. The city, after a long series of local protests, had filed an appeal to get a larger share of the local government fund.

Before action was taken at the state level, however, agreement was reached in city-county conferences here.

Settlement was reached, Ammer said, after the budget commission agreed to give the city an additional \$1,000. This would mean, he explained, that the city this year will get about \$12,400 from the fund if legislative appropriations for the fund — through sales tax money — run about the same as they did last year.

Area Attorneys To Attend State Bar Conference

All attorneys and judges from Delaware, Franklin and Pickaway counties have been invited to attend the district seven meeting of the Ohio State Bar Association, to be held at the Neil House, in Columbus, Wednesday.

County Prosecutor William Ammer, and City Solicitor Kenneth Robbins are among a number of Pickaway attorneys who will be in attendance.

Attorney Byron E. Ford of Columbus, state bar executive committee member for the district, will preside over the meeting. The afternoon session will feature a panel discussion concerning various aspects of professional fees.

Attorney Frank C. Dunbar Jr. of Columbus will serve as moderator for the panel, which will be composed of Attorneys John W. Bebout of Toledo, Ray W. Davis of Circleville and Waymon B. McLeskey of Columbus. An election for a member of the state bar's executive committee and for three members of the council of delegates will be held.

ATTORNEY EARL F. MORRIS of Columbus, president of the state bar, will welcome and briefly outline the association's program to all in attendance.

Guest speaker at the evening banquet will be the immediate past president of the state bar, Attorney Fred A. Smith of Toledo.

Doctor Ordered To Reveal Findings

TOLEDO (AP)—The Sixth District Court of Appeals has ruled a doctor can be compelled to reveal his findings in a physical examination prior to a damage suit trial.

That set aside an earlier decision in which Dr. George B. Bates of Toledo was released from a contempt citation.

The test case was an aftermath to a damage suit against Community Traction Co. in which Dr. Bates examined the plaintiff, who had claimed injuries.

The doctor and George Ruley, attorney for the traction company, refused to disclose the results of the examination to the attorney for the plaintiff.

The European brown bear has been known since the days of the Roman empire. Nearly every zoo in the world contains such a bear.

New Garbage Plan Arouses Pros And Cons

(Continued from Page One)

also claimed the new system will be more expensive. One man said he's getting a good job done for \$1 a month now and does not see any reason why he should have to pay \$1.50 a month. An E. Main St. woman who lives alone said:

"There are too many widows around to require tying up garbage and then having to haul it out to the sidewalk."

Miss Ina Klingensmith of 382 E. Franklin St. said that during the winter she does not have garbage regularly, and when she does she phones her present hauler who makes a pickup for 50 or 75 cents. She estimated she has only had to call him about three times since last fall. Under the new plan, she estimated, she would have to pay three times as much for the winter garbage collection.

Other objections voiced included: "I don't think the city should have gone out of town with the contract. A local man should have gotten it, even if he wasn't low bidder."

"It will be a terrible thing to have the garbage cans out on the sidewalks. It will certainly make a beautiful city!"

PERHAPS THE sharpest comment was made by H. E. Valentine of 219 Walnut St. who said in regard to the passage of the ordinance:

"Council should be under a guardian!"

Among those who favored the new plan, irregular collection was the reason most often given. A typical complaint was:

"Some of these haulers can't be depended upon, they will collect one week, but not the next." Another man said:

"Present haulers are unreliable and have to be picked up after. Sometimes they drop things on the street and then it has to be cleaned up. When you tell them about it, they get mad."

Efficiency was also mentioned as a benefit to be derived from the new plan. One supporter of the ordinance said:

"At least they'll be a system to this thing for a change. It has worked well in other cities, it should work well here."

IN ANSWER to the question of what they intended to do with their garbage once the plan takes effect, a number of those expressing disapproval of the ordinance heatedly said they would take care of their own garbage before they would hire someone they didn't want. A Watt St. man announced:

"I'm going to put in a garbage disposal and incinerate my own stuff in a back yard grill. I'll be able to take care of everything except tin cans, and I'll get rid of those if I have to bury them."

A different idea was put forth by Mrs. A. J. Lyle of 154 W. Mound St. She said that she might make a compost pile of the garbage and use it as garden fertilizer.

There's more than one thing you can do with garbage," she added.

Still another man, a Reber Ave. resident, ominously warned, "You'll see a lot of dumping along side the highways if this plan goes through. People aren't going to be told whom they can hire and whom they can't."

Amidst the disagreement on the garbage plan, at least one resident was willing to take what might be termed the broad view. Mrs. Lucy Groom of 561 E. Main St. said:

"IT WILL be too expensive for me. I hate to give up my present collector and I'm not sure what I'll do yet, but I think it will be a fine thing for the city."

Whatever is done, one thing is certain, it won't be unanimous.

Mainly About People

ONE MINUTE PULPIT

Commit thy way unto the Lord. trust also in him, and he will bring it to pass.—Psalm 37:5. Faith is the channel that brings infinite power to our aid. Faith and love.

Curtis Reid of Circleville Route 3 was admitted Monday to Berger Hospital as a medical patient.

Class of '59 at Mt. Sterling high school will sponsor a 50-50 dance in the school gymnasium Friday March 8 from 8:30 to 11:30 p. m. Al Longstreth's orchestra will furnish the music.

Charles Wilson of Tarlton is a medical patient in Berger Hospital. He was admitted Monday.

Harry Montellus of Circleville Route 1 was admitted Monday to Berger Hospital as a surgical patient.

There will be a card party in the K of P hall Tuesday March 5 starting at 8 p. m.

Mrs. Howard Courtney and daughter of 322 Mingo St. were released from Berger Hospital Monday.

Lewis Fohl of 130 N. Pickaway St., a patient at Berger Hospital, was transferred Monday to University Hospital, Columbus.

Mrs. James Kuhn and daughter of Columbus were released Tuesday from Berger Hospital.

Dancing (round and square) Wednesday, March 6 from 8 to 11. Circle D Recreation, 144 E. Main St. Clay Eager will call for square dancing with the "Homesteaders" and Buddy Ross. Tickets will be sold at the door and may be purchased from any Legionnaire.—ad.

Mrs. F. R. Woods is a surgical patient in White Cross Hospital, Columbus. Her room number is 113.

Miss Beverly Knecht is now associated with the Mary-Lowell beauty Salon, specializing in all types of beauty culture. Phone 835 for appointment.

Ashville Residents Conduct Activity At Dart Ball Banquet

Several persons from Ashville took part in the annual Franklin County Lutheran dart ball league banquet held in St. Mark Lutheran Church, Columbus.

Ed Irwin served as toastmaster and the Rev. Werner Stuck conducted devotionals. Merritt Landig sang a selection of songs.

Guest speaker for the evening was Prof. Earl C. Metz of the Capital University school of education.

A trophy was presented to Howard Billman of the Grove City team which won this year's championship.

What Can The Joy Of Outdoors Mean To An Unwanted Puppie?

All around the town these days they're talking of the city's Summer-time dog law, and how — for the sake of the flowers, the gardens and the bright green lawns — the pets must restrict their roaming until Fall comes again.

The pets, the city ordinance warns, can be legally off their home premises only in the company of their owner or custodian.

For a lot of dogs with wanderlust, of course, that's a rule of strict restraint in this season of outdoor fun. But for one at least, none of it has any meaning.

Troubled and unwanted, a six-months old collie pup is putting in his time at the end of the trail for all the local dogs nobody claims as their own. Dog Warden Ralph Wallace told how a Circleville woman turned the pup over to him

a few days ago, explaining sadly why she isn't in a position to give the pedigreed animal the care it needs.

"I'LL KEEP him until Wednesday," Wallace said. "As far as I know nobody wants him. But he's a pretty dog. Mighty pretty, I think."

It's just one of those rough cases you hear about. And this one seems especially to be a tough luck deal."

The "tough luck" pup, as far as anybody seems to know, never had a real name. Far too often in this loud and hurried world, you see, we don't bother to name puppies unless they're wanted.

And nobody wants the "tough luck" pup. Very likely, nobody ever will. The "tough luck" pup is blind.

Washington CH Will Remain In South Central Ohio League

Washington C. H. High School officials have announced that the Blue Lion school plans to remain in the old South Central Ohio League.

After taking all but the final step in joining a new Mid-Eight loop, Washington officials switched their decision in favor of staying with the SCOL, which is now in the process of being enlarged.

School heads at Washington said the decision was based on the fact that the SCOL has now been enlarged to seven teams and it is expected that an eighth will be added within the next two years.

Washington's original decision to join a new league was caused, in part by the difficulty encountered in scheduling games in a loop that was comprised of only five teams — Circleville, Hillsboro, Greenfield, Wilmington and Washington.

AS IT stands now, the SCOL will start the 1958 football season with all the old teams, plus Franklin Heights and a new unnamed high school now under construction near Columbus. Franklin Heights, a new school, is located west of Columbus.

Although it is hoped that an eighth school will be added to the loop in the near future, there has been no definite mention which school it will be. Reports indicate that it might be another new school in the Columbus area.

The athletic board at Washington pointed out that by remaining in the SCOL, the school would be about the center point as far as

New Citizens

MASTER BEAVER

Mr. and Mrs. James Beaver of Mt. Sterling are the parents of a son born Sunday in Doctors Hospital, Columbus.

Supersonic Bomber Hard To Observe

WASHINGTON — The world's first known supersonic bomber, the Convair B58, travels so swiftly the fastest Air Force fighter is used as a "chase" airplane for observation.

The B58 Hustler, first flown last November, has considerably exceeded the speed of sound—about 760 miles an hour at sea level—in test flights.

A Convair official confirmed that the fastest fighter, an F104, has been added to the fleet of planes employed to make observations during B58 flights.

Local Kiwanians Enjoy Color Films On Water Sports

Jim Fortney, boat dealer from Harrisburg, presented films of water skiing and fishing during a Kiwanis Club meeting held last night in the Mecca restaurant.

The films, in technicolor, dealt with the fundamentals of both water sports and the great amount of enjoyment derived from them.

Hal Dickinson, local hardware store owner, was a guest for the evening.

Kiwanian Bob Clark won an electric clock in an attendance drawing held at the close of the meeting.

AUCTION

The annual Saltcreek P.T.O. Community Auction will be held at the school on

Saturday, March 9

Beginning Promptly At 10 A.M.

To be sold will be farm machinery, posts, lawn mowers, farm animals and pets, electric heater, hay, popcorn, screen doors, play pen, antique mortar and pestle, coffee table, household furnishings, clothing for children and adults, dishes, canned goods, cakes and pies and many other articles.

ALSO TO BE SOLD ANTIQUE DOUBLE SCHOOL DESKS FORMERLY USED IN THE OLD TARLTON SCHOOL

Lunch Will Be Served By The P.T.O.

— Auctioneers —
Rolland Featheringham and James Ford

IT IS GOOD BUSINESS TO DO BUSINESS WITH Blue Ribbon Dairy

8 HERE ARE REASONS WHY:

1. Blue Ribbon Dairy is 100% locally owned and operated
2. All our milk is purchased from 36 local producers
3. Laboratory control maintained on milk produced and processed
4. Our chief interest is in producing the finest dairy products
5. We give daily delivery service to your store and to your door
6. We provide year 'round employment for 22 employees
7. We are interested in community activities
8. We support all school programs in the interest of better education!

World Today

By JAMES MARLOW
Associated Press
News Analyst

WASHINGTON (AP) — Ten years ago next week the United States said goodbye to the American tradition of isolation. In one day it became truly internationalist and assumed active leadership of the non-Communist world.

It was on March 10, 1947, that President Truman appealed to Congress for 400 million dollars in economic and military aid to Greece and Turkey to enable them to withstand the steady push of communism.

The idea of American help to European countries wrecked by the war was not new. What was new in American foreign policy was the principle laid down by the President, known now as the Truman Doctrine.

In brief he said: Communist conquest of any country anywhere was a danger to the United States and must be prevented. The program, started with Greece and Turkey, has been extended to other parts of the world.

Since 1947 this country has put out more than 50 billion dollars in economic and military help to friendly and non-Communist countries. The Marshall Plan, help on a huge scale, was started in 1947. Then followed military alliances the main ones being in Europe — the North Atlantic Treaty Organization — and in Asia the Southeast Asia Treaty Organization.

In addition, this country has ringed Russia with American military bases in friendly countries. The policy laid down by Truman, military and economic, is still the policy followed by President Eisenhower.

Truman laid down his policy at a time when Communist guerrillas were trying to overthrow the Greek government and Turkey was under pressure from her northern neighbor, Russia.

"I believe," he said, "it must be the policy of the United States to support free folks who are resisting attempted subjugation by armed minorities or by outside pressures. . . .

"Totalitarian regimes imposed on free peoples, by direct or indirect aggression, undermine the foundations of international peace and hence the security of the United States."

If President Franklin Roosevelt had adopted the same policy—that totalitarian conquest of any country was a danger to the United States — Hitler might have been stopped and World War II averted.

But Roosevelt — until events in Europe and the Japanese attack on Hawaii forced this country into war — followed the long tradition down by President Monroe on Dec. 2, 1823.

The Monroe Doctrine said in effect to the rest of the world outside North and South America: You stay out of affairs in our hemisphere, and we'll stay out of yours.

That was the policy pretty much followed by this country until it got into World War I. After that war, it rushed back into isolationism and remained there until World War II.

After the experience of that war the United States finally came to the realization that the world had shrunk and some international cooperation to maintain peace was needed. For that reason it joined the United Nations in 1945.

Between 1945 and 1947, while the United States gave help abroad to countries wrecked by the war, it was still hoping it was possible to live in peace with Russia. But Stalin, looking on the war-wrecked world around him, considered it an invitation to conquest in one way or another.

The Truman Doctrine thus was the result of despair that Russia would be a peaceful neighbor and of the realization that this country had to assert leadership or ultimately expect to find itself surrounded by communism.

Women have more colds than men by a three to two ratio.

Korea Bonus Blanks Due On March 11

COLUMBUS, Ohio (AP) — Ohio veterans of the Korean War can obtain bonus application blanks starting March 11 in all 88 counties.

Bonus Director Chester W. Goble today announced composition of the forms to inform veterans who will apply for bonuses.

"We are releasing this form . . . in our educational and training program which will be in full swing throughout Ohio during the coming week," Goble said.

Goble said applications will be distributed by Ohio National Guard trucks and the Ohio Highway Patrol. They can be obtained by veterans through agencies cooperating with county veterans' service officer in each county between 6 a. m. and noon in county courts-houses, memorial buildings or other public buildings in the various counties.

The application, entitled "Form K-1," will have 21 items on both sides of a sheet of paper and a place for applicants to sign and make sworn statements. Printed instructions will accompany the forms.

"We want to do all we can between now and March 11 so all eligible veterans can file accurate applications for the Korean conflict compensation," Goble said. The director said a staff of 20 district representatives will work in all 88 counties to help local communities provide information for veterans.

Bonuses to a maximum of \$400 will be paid at the rate of \$10 a month for domestic service, and \$15 for foreign service between June 25, 1950, and July 19, 1953.

OSU To Build Own Atomic Reactor

COLUMBUS (AP)—Ohio State University is planning to build a small atomic reactor on the campus for use in training scientists and engineers.

Physics Prof. Marion L. Pool said the fuel will be natural uranium, but the reactor will not operate at a "critical" level so that there will be no chance of any chain reaction getting out of hand. The Atomic Energy Commission has granted \$48,350 to the university to build and equip the reactor, which will be in cylindrical shape and about five feet in height.

Pool said the reactor would be used strictly as a training instrument, not for research.

Container Corp. Plans New Plant

CLEVELAND (AP)—Solon Village Council was told Monday night that Container Corp. of America plans to break ground in Solon this month for a \$1 million folding carton plant.

The company bought 23 acres for the plant, scheduled to be finished Sept. 1.

Ohio Legislature Nearing Record in Filing of Bills

By ART PARKS

COLUMBUS, Ohio (AP) — Sometime late today the Ohio Legislature might set a new record for bill introduction.

This is the last day the 102nd General Assembly will accept proposals for new laws or changes in old ones.

In the race to beat the deadline, lawmakers introduced 166 bills Monday night to bring the session total to 1,017.

On deadline day in 1955, legislators introduced 434 bills. If today is anywhere near a match for the deadline day two years ago, the 1955 record total of 1,355 will be surpassed.

When the dust settles from the big bill-introduction flurry, a number of lawmakers are going to be astonished at the content of the bills they are sponsoring.

In dozens of instances Monday night, newsmen asked legislators to explain bills they had just introduced and got the answer:

"I don't know. The bill was just handed to me a few minutes ago."

Such bills come from lobbyists and other representatives of "pressure groups." But such last-minute measures have practically as good a chance of final enactment as bills introduced earlier.

Of the 434 introduced on "deadline day" two years ago, 91 became law—something more than 20 per cent. Slightly fewer than 25 per cent of all bills eventually become law.

A couple of loud echoes from the 1955 session were heard in bills introduced Monday night.

One was a bill to prohibit a public school pupil from being a member of a secret society—a fraternity or sorority, in short.

A similar proposal got stuck in the Senate Rules Committee two years ago after it got a resounding vote in the House. The new proposal would provide expulsion for youngsters who persist in secret-society membership. It prohibits the wearing of fraternity or sorority jewelry on school property.

Another echo was reintroduction of the "right to work" bill, a proposed law to guarantee that there shall be no picketing to interfere with free access to industrial plants and provide fines for those who seek to compel union membership.

In 1955 the bill produced oratory but no action.

While bill introduction was in full swing, the House managed to pass two bills and send them to the Senate.

One would license commercial driver training schools and their instructors. It was approved, 118-7.

Another would advance from Jan. 1 to Jan. 20 the deadline for county auditor registration on dogs more than three months old. It was approved, 122-0.

The House scheduled a vote today on a bill to lower license fees for private motor transit coaches

to \$10 a year. Some now pay as high as \$300.

Monday night's bumper crop of bills included measures to:

Revise the state racing law to prohibit interlocking interests in tracks, increase the membership of the Ohio Racing Commission, make appointments to the commission subject to Senate confirmation and increase the salary of the commission secretary.

Exempt homesteads of retired persons 65 or older from taxation.

Permit re-registration of voters by mail in counties under 100,000.

Set up an identification card system for liquor purchases.

Prohibit picketing of funeral homes.

Extend jurisdiction of the Circleville Municipal Court countywide.

Extend the state poor relief tax on public utilities another two years.

Tax juke boxes \$50 a year for

education of retarded children.

Require non-profit corporations to renew registrations annually.

Permit up to a year's suspension of driver licenses for violations.

Create a state advisory board on atomic energy.

Exempt special election days from the liquor sale ban on election days.

Allow arrests for drunk driving on the testimony of two or more witnesses.

Require auto inspection once or twice a year with \$1.50 fee.

Permit municipal courts to establish small-claims divisions.

Classify an attempt to break and enter in the daytime as a felony.

Establish the top fine for damaging public utility property at \$1,000 and set the prison term at one to three years.

Require auto inspection on request of the Ohio Highway Patrol, set up a point system for revocation of driver licenses of habitual offenders and set a standard of alcohol weight in blood as a prima facie evidence of drunk driving.

Repeal the 1955 law which gives the State Board of Education the authority to grant or deny transfer of school district territory in connection with a municipal annexation.

Authorize appointments of notaries with statewide powers.

Prohibit approval of a municipal annexation if it reduces the assessed valuation of a township below the January 1955 valuation or if it reduces the township valuation by more than 5 per cent per capita.

Permit creation of special classes for gifted children.

Slash taxes on beer and ale in half.

Convey two state-owned canal tracts to the city of St. Marys.

Limit school transportation costs to \$20 per transported pupil.

Exempt school buses from the state sales tax.

Increase top unemployment benefits from \$33 to \$42 a week.

Create a state office of local government to aid Ohio communities in solving their problems; set the director's salary at \$12,000.

Permit the State Board of Education to charter elementary schools.

Detroit Firemen Use 116 Taxicabs

DETROIT (AP) — Detroit firemen reported in style to a four-alarm blaze Monday.

They used 116 taxicabs to reach a fire in a two-story building that caused damage estimated by Fire Chief Edward J. Blohm at \$50,000.

The fire was still burning when a new shift of firemen reported for duty at 8 a. m. Since all their trucks and other equipment were at the scene, the reporting firefighters hailed taxicabs to carry them to the blazing building.

The firemen going off duty used the taxis to return home.

Westinghouse Planning Layoff

MANSFIELD (AP)—Westinghouse Electric Corp. has announced it will lay off 4,000 workers here for one week starting March 18 "unless business picks up." The layoff would virtually shut down the plant where heavy home appliances are made.

The announcement came after members of Local 711, International Union of Electrical Workers scheduled a vote on whether to take the one-week layoff or to take off every other Friday for an eight-week period.

Texas Solon Quits After Indictment

AUSTIN, Tex. (AP)—State Rep. James E. Cox, indicted on a charge of agreeing to accept a \$5,000 bribe to kill a medical bill, has submitted his resignation but there is a question whether it would be accepted because that could halt a House investigation of the case.

Cox claims he agreed to take the money in a plan to catch crooked lobbyists.

Now Many Wear FALSE TEETH With More Comfort

FASTEETH, a pleasant alkaline (non-acid) powder, holds false teeth more firmly. To eat and talk in more comfort, just sprinkle a little FASTEETH on your plates. No gummy, gooey, pasty taste or feeling. Checks "plate odor" (denture breath). Get FASTEETH at any drug counter.

World Today

By JAMES MARLOW
Associated Press
News Analyst

WASHINGTON (AP) — Ten years ago next week the United States said goodbye to the American tradition of isolation. In one day it became truly internationalist and assumed active leadership of the non-Communist world.

It was on March 10, 1947, that President Truman appealed to Congress for 400 million dollars in economic and military aid to Greece and Turkey to enable them to withstand the steady push of communism.

The idea of American help to European countries wrecked by the war was not new. What was new in American foreign policy was the principle laid down by the President, known now as the Truman Doctrine.

In brief he said: Communist conquest of any country anywhere was a danger to the United States and must be prevented. The program, started with Greece and Turkey, has been extended to other parts of the world.

Since 1947 this country has put out more than 50 billion dollars in economic and military help to friendly and non-Communist countries. The Marshall Plan, help on a huge scale, was started in 1947. Then followed military alliances the main ones being in Europe — the North Atlantic Treaty Organization — and in Asia the Southeast Asia Treaty Organization.

In addition, this country has ringed Russia with American military bases in friendly countries. The policy laid down by Truman, military and economic, is still the policy followed by President Eisenhower.

Truman laid down his policy at a time when Communist guerrillas were trying to overthrow the Greek government and Turkey was under pressure from her northern neighbor, Russia.

"I believe," he said, "it must be the policy of the United States to support free folks who are resisting attempted subjugation by armed minorities or by outside pressures. . . .

"Totalitarian regimes imposed on free peoples, by direct or indirect aggression, undermine the foundations of international peace and hence the security of the United States."

If President Franklin Roosevelt had adopted the same policy—that totalitarianism was a danger to the United States — Hitler might have been stopped and World War II averted.

But Roosevelt — until events in Europe and the Japanese attack on Hawaii forced this country into war — followed the long tradition down by President Monroe on Dec. 2, 1823.

The Monroe Doctrine said in effect to the rest of the world outside North and South America: You stay out of affairs in our hemisphere, and we'll stay out of yours.

That was the policy pretty much followed by this country until it got into World War I. After that war, it rushed back into isolationism and remained there until World War II.

After the experience of that war the United States finally came to the realization that the world had shrunk and some international cooperation to maintain peace was needed. For that reason it joined the United Nations in 1945.

Between 1945 and 1947, while the United States gave help abroad to countries wrecked by the war, it was still hoping it was possible to live in peace with Russia. But Stalin, looking on the war-wrecked world around him, considered it an invitation to conquest in one way or another.

The Truman Doctrine thus was the result of despair that Russia would be a peaceful neighbor and of the realization that this country had to assert leadership or ultimately expect to find itself surrounded by communism.

Women have more colds than men by a three to two ratio.

Korea Bonus Blanks Due On March 11

COLUMBUS, Ohio (AP) — Ohio veterans of the Korean War can obtain bonus application blanks starting March 11 in all 88 counties.

Bonus Director Chester W. Goble today announced composition of the forms to inform veterans who will apply for bonuses.

"We are releasing this form . . . in our educational and training program which will be in full swing throughout Ohio during the coming week," Goble said.

Goble said applications will be distributed by Ohio National Guard trucks and the Ohio Highway Patrol. They can be obtained by veterans through agencies cooperating with county veterans' service officers in each county between 6 a. m. and noon in county courthouses, memorial buildings or other public buildings in the various counties.

The application, entitled "Form K-1," will have 21 items on both sides of a sheet of paper and a place for applicants to sign and make sworn statements. Printed instructions will accompany the forms.

"We want to do all we can between now and March 11 so all eligible veterans can file accurate applications for the Korean conflict compensation," Goble said. The director said a staff of 20 district representatives will work in all 88 counties to help local communities provide information for veterans.

Bonuses to a maximum of \$400 will be paid at the rate of \$10 a month for domestic service, and \$15 for foreign service between June 25, 1950, and July 19, 1953.

OSU To Build Own Atomic Reactor

COLUMBUS (AP)—Ohio State University is planning to build a small atomic reactor on the campus for use in training scientists and engineers.

Physics Prof. Marion L. Pool said the fuel will be natural uranium, but the reactor will not operate at a "critical" level so that there will be no chance of any chain reaction getting out of hand. The Atomic Energy Commission has granted \$48,350 to the university to build and equip the reactor, which will be in cylindrical shape and about five feet in height.

Pool said the reactor would be used strictly as a training instrument, not for research.

Container Corp. Plans New Plant

CLEVELAND (AP)—Solon Village Council was told Monday night that Container Corp. of America plans to break ground in Solon this month for a \$1 million folding carton plant.

The company bought 23 acres for the plant, scheduled to be finished Sept. 1.

Ohio Legislature Nearing Record in Filing of Bills

By ART PARKS
COLUMBUS, Ohio (AP) — Sometime late today the Ohio Legislature might set a new record for bill introduction.

This is the last day the 102nd General Assembly will accept proposals for new laws or changes in old ones.

In the race to beat the deadline, lawmakers introduced 166 bills Monday night to bring the session total to 1,017.

On deadline day in 1955, legislators introduced 434 bills. If today is anywhere near a match for the deadline day two years ago, the 1955 record total of 1,355 will be surpassed.

When the dust settles from the big bill-introduction flurry, a number of lawmakers are going to be astonished at the content of the bills they are sponsoring.

In dozens of instances Monday night, newsmen asked legislators to explain bills they had just introduced and got the answer:

"I don't know. The bill was just handed to me a few minutes ago."

Such bills come from lobbyists and other representatives of "pressure groups." But such last-minute measures have practically as good a chance of final enactment as bills introduced earlier.

Of the 434 introduced on "deadline day" two years ago, 91 became law—something more than 20 per cent. Slightly fewer than 25 per cent of all bills eventually become law.

A couple of loud echoes from the 1955 session were heard in bills introduced Monday night. One was a bill to prohibit a public school pupil from being a member of a secret society—a fraternity or sorority, in short.

A similar proposal got stuck in the Senate Rules Committee two years ago after it got a resounding vote in the House. The new proposal would provide expulsion for youngsters who persist in secret-society membership. It prohibits the wearing of fraternity or sorority jewelry on school property.

Another echo was reintroduction of the "right to work" bill, a proposed law to guarantee that there shall be no picketing to interfere with free access to industrial plants and provide fines for those who seek to compel union membership. In 1955 the bill produced oratory but no action.

While bill introduction was in full swing, the House managed to pass two bills and send them to the Senate.

One would license commercial driver training schools and their instructors. It was approved, 118-7.

Another would advance from Jan. 1 to Jan. 20 the deadline for county auditor registration on dogs more than three months old. It was approved, 122-0.

The House scheduled a vote today on a bill to lower license fees for private motor transit coaches

to \$10 a year. Some now pay as high as \$300.

Monday night's bumper crop of bills included measures to:

Revise the state racing law to prohibit interlocking interests in tracks, increase the membership of the Ohio Racing Commission, make appointments to the commission subject to Senate confirmation and increase the salary of the commission secretary.

Exempt homesteads of retired persons 65 or older from taxation.

Permit re-registration of voters by mail in counties under 100,000.

Set up an identification card system for liquor purchases.

Prohibit picketing of funeral homes.

Extend jurisdiction of the Circleville Municipal Court countywide.

Extend the state poor relief tax on public utilities another two years.

Tax juke boxes \$50 a year for

education of retarded children.

Require non-profit corporations to renew registrations annually.

Permit up to a year's suspension of driver licenses for violations.

Create a state advisory board on atomic energy.

Exempt special election days from the liquor sale ban on election days.

Allow arrests for drunk driving on the testimony of two or more witnesses.

Require auto inspection once or twice a year with \$1.50 fee.

Permit municipal courts to establish small-claims divisions.

Classify an attempt to break and enter in the daytime as a felony.

Establish the top fine for damaging public utility property at \$1,000 and set the prison term at one to three years.

Require auto inspection on request of the Ohio Highway Patrol, set up a point system for revocation of driver licenses of habitual offenders and set a standard of alcohol weight in blood as a prima facie evidence of drunk driving.

Repeal the 1955 law which gives the State Board of Education the authority to grant or deny transfer of school district territory in connection with a municipal annexation.

Authorize appointments of notaries with statewide powers.

Prohibit approval of a municipal annexation if it reduces the assessed valuation of a township below the January 1955 valuation or if it reduces the township valuation by more than 5 per cent per capita.

Permit creation of special classes for gifted children.

Slash taxes on beer and ale in half.

Convey two state-owned canal tracts to the city of St. Marys.

Limit school transportation costs to \$20 per transported pupil.

Exempt school buses from the state sales tax.

Increase top unemployment benefits from \$33 to \$42 a week.

Create a state office of local government to aid Ohio communities in solving their problems; set the director's salary at \$12,000.

Permit the State Board of Education to charter elementary schools.

to \$10 a year. Some now pay as high as \$300.

Detroit Firemen Use 116 Taxicabs

DETROIT (AP) — Detroit firemen reported in style to a four-alarm blaze Monday.

They used 116 taxicabs to reach a fire in a two-story building that caused damage estimated by Fire Chief Edward J. Blohm at \$50,000.

The fire was still burning when a new shift of firemen reported for duty at 8 a. m. Since all their trucks and other equipment were at the scene, the reporting fire-fighters hailed taxicabs to carry them to the blazing building.

The firemen going off duty used the taxis to return home.

Westinghouse Planning Layoff

MANFIELD (AP)—Westinghouse Electric Corp. has announced it will lay off 4,000 workers here for one week starting March 18 "unless business picks up." The lay-off would virtually shut down the plant where heavy home appliances are made.

The announcement came after members of Local 711, International Union of Electrical Workers scheduled a vote on whether to take the one-week layoff or to take off every other Friday for an eight-week period.

Texas Solon Quits After Indictment

AUSTIN, Tex. (AP)—State Rep. James E. Cox, indicted on a charge of agreeing to accept a \$5,000 bribe to kill a medical bill, has submitted his resignation but there is a question whether it would be accepted because that could halt a House investigation of the case.

Cox claims he agreed to take the money in a plan to catch crooked lobbyists.

Another Problem For Posterity

He didn't say when, but Fred G. Aandahl, Assistant Secretary of the Interior, predicts that eventually desalted ocean water will serve all the needs of this country and others.

Research already has lowered the cost of desalted ocean water to 60 cents a thousand gallons. Aandahl foresees the time when water can be taken from the ocean economically, providing a source that is virtually inexhaustible. There will be a network of pipelines across the country, with

the water pumped to where it is needed by hydrogen or atomic power, he predicts.

Speaking of new horizons, here is one to stagger all but the most robust imaginations. A program of that scope could provide this nation with development projects for many decades. But it is to be hoped that the ocean water, as it soaks the land, will start springs and revive watercourses.

If man withdrew from the ocean and never put back, that "inexhaustible" source eventually could dry up.

For Each His Own Opinions

In his new book, "The Turn of the Tide," British Field Marshal Viscount Alanbrooke throws his slams and pats around promiscuously.

As for Americans, Alanbrooke describes Douglas MacArthur as the outstanding general of World War II. His Pacific campaign to defeat the Japs was "sheer genius."

General Eisenhower, he writes, was not great shakes as a strategist or a tactician, but he made up for it in large part by his personality which persuaded Allied leaders of various nations to work together as

a team. He had more luck than any man can expect. General Marshall, chief of staff, was a great gentleman who did not impress the author as possessing outstanding brain power.

The Briton pays his respects to his wartime leader, Winston Churchill. Churchill, he says, fluctuated erratically from "most brilliant" to "most dangerous," never losing his obsession that he was a military genius.

Alanbrooke has that off his chest, but he will not be very popular with most of the men he appraises, nor with their heirs and descendants.

Are You A 'Switch-Looker'?

By Hal Boyle

NEW YORK (AP)—Things a columnist might never know if he didn't open his mail:

That the odds are you are right-eyed as well as right-handed. The right eye dominates the vision of 60 per cent of us, the left eye is the boss for 25 per cent. The remaining 15 per cent have ambidextrous eyeballs and are "switch lookers."

That Hippocrates, the "Father of Medicine," treated eye ailments by prescribing a restricted diet and hot foot baths!

That spectacles were first introduced in the year 1300, and their inventor is unknown. Bifocals were invented by a Philadelphia printer and proverb maker called Ben Franklin.

That it is no wonder a baby cries at the first sight of its father; until its vision becomes coordinated, the infant sees its old man upside down and with each eye separately—enough to frighten any child.

That if you are head of a fam-

ily of four and have an annual income of \$5,000, every time the U. S. cost of living index goes up a point, it costs you \$34 a year.

That Rep. Victor L. Anfuso (NY-D) has introduced a bill in Congress to allow parents a special tax exemption of up to \$1,000 for expenses incurred in sending their children to college.

That at the University of Missouri the nuptial vow is more popular than the fraternity pledge; one out of every five students is married.

That of the 171 pensioned former municipal employees of New York City who live abroad, 101 are in Ireland.

That if you go on the wagon you can still use your cocktail shaker to shake up pancake mix batter.

That if the human race continued to increase at the present rate in 5,000 years the population would weigh as much as the earth itself.

That chairs originally were

used only by exalted persons such as kings and priests, and commoners and slaves sat on the floor or on stools and benches; at least a fourth of mankind still takes the load off its feet by squatting, rather than sitting.

That some anthropologists, who say the body can hold 1,000 steady postural positions, believe prolonged chair-sitting is one of civilized man's greatest physical errors.

That Queen Elizabeth of England and Gypsy Rose Lee have a common interest . . . fishing.

That the late Albert von Tilzer, who wrote, "Take Me Out to the Ball Game," never saw a ball game until 1928, twenty years after his song became a hit.

That it was Benjamin Disraeli who observed, "If every man were straightforward in his opinions there would be no conservation."

By George Sokolsky

Father's Authority Dwindling

To get away from Israel and Egypt, from budgets and taxes, from passions and follies, I picked up a pamphlet entitled, "Father—the Forgotten Man." I shall now plead guilty to being the forgotten man whenever my children say to me, "And what did you do when you were our age?" That is exactly why I do not care to write an autobiography. Too many years would have to be omitted.

Recently, I saw a magazine article explaining how suburban children practically grow up fatherless because between commuting and golf, the children almost never see the head of the family. While this may be an exaggeration, the point that the writer of the magazine article wanted to make was that mamma has become the boss of the household and the children live under a matriarchy, which must be awful.

This pamphlet that I am looking at goes along with the magazine article and holds that father has become a "nebulous" figure. It quotes a study which relegates the father to the condition of a "mother substitute" which is something no man ought to be. Of course, when a woman claims that the father of her child is a test-tube, the question arises as to what to call the dame.

There are some startling divorce statistics in this pamphlet. It says that of approximately 400,000 divorces granted in the United States each year, about 72 per cent are decrees granted to wives, who in virtually all cases automatically get possession of the children. About 95 per cent of all divorces are uncontested and most of them are by pre-arrangement. This involves about 300,000 children each year. In most divorces the father gets a raw deal no matter how you look at it. Howard Whitman who made this study then says:

"Investigation of juvenile delinquency, the growing problem of homosexuality, and the already critical problem of emotional disturbance in children, points clearly to the absence of

adequate father influence as a contributing factor."

It is difficult to generalize from personal experience which must necessarily be narrow and restricted. Nevertheless, I know quite a sizeable number of children in broken homes and I think that the comment of Judge Julius H. Miner of the Circuit Court of Illinois, will stand analysis when he says: "Arrangements for the custody of children among divorced parents are never satisfactory. There is always immeasurable strain upon their paternal affection. Children become surly, non-conforming and ultimately incorrigible. Lack of proper supervision leads them into the path of delinquency and lawlessness."

What is the psychological effect upon a child as it grows up, reads newspapers, hears gossip, and discovers that his mother has had not only two but three or four husbands? Children at one stage believe that their parents are different from others and do not do what others do. Then the child discovers that they do what others do. Then the child goes through a period of hero-worship of the father. Then the father falls from grace and might be called a jerk over the telephone to another child.

Then the child needs father, a sort of big shot who can get things done, but there is no father.

Queer things are said nowadays to disturb human relations. I heard of a physician telling a young boy that no boy over 17 should live at home with a father because the strain is too great. This is dumb advice but springs from the present conception that all stresses and strains are bad and that punishment is evil and competition a vice.

This is an excellent pamphlet for wives and mothers to read, and I assume that it can be obtained from the Kirkbride Fund, 1421 Chestnut Street, Philadelphia, Pa. It ought to be of particular value to such mothers as believe that they are doing their best by their children either by replacing the influence of the father or by divorcing him.

"For the sake of the children" is often a self-serving phrase which excuses an assumption that the husband is little more than a stud and that his influence in the family should be secondary to that of the mother. Children get on to that game fast enough and sooner or later learn to respect neither the father nor the mother.

Annual Check-Up Helps To Combat Tuberculosis

By HERMAN N. BUNDESEN, M.D.

YOU may feel perfectly well—and yet be ill with tuberculosis. For, unfortunately, in the early stages of TB—the time when the disease can most easily be cured—there usually are no symptoms to warn you of your peril.

Eventually signs do appear, but often not until the disease has reached the advanced stage. Such symptoms may include loss of appetite, loss of weight, excessive fatigue, frequent colds, fever, chronic coughing, night sweats, indigestion and spitting up of blood.

Any one or all of these symptoms might be present, yet they do not necessarily mean that you have TB. They do, however, mean that you should have a thorough physical checkup.

Even when you feel perfectly healthy, an annual examination is advisable. In addition to a thorough physical, I suggest your examination include:

1—A tuberculin test which can show whether TB germs are present in your body.
2—A chest X-ray which can show whether TB germs have done any damage.

3—Laboratory tests to find out if TB germs are growing and escaping from the body.

I urge all of you over the age of 15 to have a chest X-ray taken annually. This is especially advisable if your tuberculin test proves positive.

Watch Children

While children between the ages of 5 and 15 are less likely to have active TB than are adults, they should have an annual checkup, too.

Of course, if you have been exposed to the disease, you should have examinations more frequently than once a year.

We can cure the vast majority of cases of TB. But you've got to help us help you.

QUESTION AND ANSWER
F. K.: What causes ulcers?

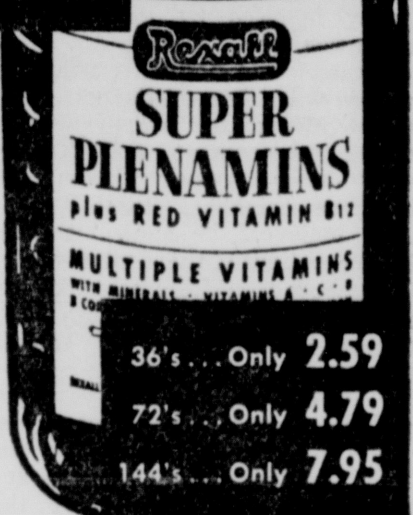

Answer: There is no definite proof as to what causes ulcers.

Some believe they result from increased production of acids by the glands of the stomach; others think they are due to a blood vessel disturbance; still others believe they may be caused by some form of nerve disturbance.

Another Problem For Posterity

He didn't say when, but Fred G. Aandahl, Assistant Secretary of the Interior, predicts that eventually desalted ocean water will serve all the needs of this country and others.

Research already has lowered the cost of desalted ocean water to 60 cents a thousand gallons. Aandahl foresees the time when water can be taken from the ocean economically, providing a source that is virtually inexhaustible. There will be a network of pipelines across the country, with

the water pumped to where it is needed by hydrogen or atomic power, he predicts.

Speaking of new horizons, here is one to stagger all but the most robust imaginations. A program of that scope could provide this nation with development projects for many decades. But it is to be hoped that the ocean water, as it soaks the land, will start springs and revive watercourses.

If man withdrew from the ocean and never put back, that "inexhaustible" source eventually could dry up.

For Each His Own Opinions

In his new book, "The Turn of the Tide," British Field Marshal Viscount Alanbrooke throws his slams and pats around promiscuously.

As for Americans, Alanbrooke describes Douglas MacArthur as the outstanding general of World War II. His Pacific campaign to defeat the Japs was "sheer genius."

General Eisenhower, he writes, was no great shakes as a strategist or a tactician, but he made up for it in large part by his personality which persuaded Allied leaders of various nations to work together as

a team. He had more luck than any man can expect. General Marshall, chief of staff, was a great gentleman who did not impress the author as possessing outstanding brain power.

The Briton pays his respects to his wartime leader, Winston Churchill. Churchill, he says, fluctuated erratically from "most brilliant" to "most dangerous," never losing his obsession that he was a military genius.

Alanbrooke has that off his chest, but he will not be very popular with most of the men he appraises, nor with their heirs and descendants.

Are You A 'Switch-Looker'?

NEW YORK (AP)—Things a columnist might never know if he didn't open his mail:

That the odds are you are right-eyed as well as right-handed. The right eye dominates the vision of 60 per cent of us, the left eye is the boss for 25 per cent. The remaining 15 per cent have ambidextrous eyeballs and are "switch lookers."

That Hippocrates, the "Father of Medicine," treated eye ailments by prescribing a restricted diet and hot foot baths!

That spectacles were first introduced in the year 1300, and their inventor is unknown. Bifocals were invented by a Philadelphia printer and proverb maker called Ben Franklin.

That it is no wonder a baby cries at the first sight of its father: until its vision becomes coordinated, the infant sees its old man upside down and with each eye separately—enough to frighten any child.

That if you are head of a fam-

ily of four and have an annual income of \$5,000, every time the U. S. cost of living index goes up a point, it costs you \$34 a year.

That Rep. Victor L. Anfuso (NY-D) has introduced a bill in Congress to allow parents a special tax exemption of up to \$1,000 for expenses incurred in sending their children to college.

That at the University of Missouri the nuptial vow is now more popular than the fraternity pledge; one out of every five students is married.

That of the 171 pensioned former municipal employees of New York City who live abroad, 101 are in Ireland.

That if you go on the wagon you can still use your cocktail shaker to shake up pancake mix batter.

That if the human race continued to increase at the present rate in 5,000 years the population would weigh as much as the earth itself.

That chairs originally were

used only by exalted persons such as kings and priests, and commoners and slaves sat on the floor or on stools and benches; at least a fourth of mankind still takes the load off its feet by squatting, rather than sitting.

That some anthropologists, who say the body can hold 1,000 steady postural positions, believe prolonged chair-sitting is one of civilized man's greatest physical errors.

That Queen Elizabeth of England and Gypsy Rose Lee have a common interest . . . fishing.

That the late Albert von Tilzer, who wrote, "Take Me Out to the Ball Game," never saw a ball game until 1928, twenty years after his song became a hit.

That it was Benjamin Disraeli who observed, "If every man were straightforward in his opinions there would be no conversation."

Father's Authority Dwindling

By George Sokolsky

To get away from Israel and Egypt, from budgets and taxes, from passions and follies, I picked up a pamphlet entitled, "Father—the Forgotten Man." I shall now plead guilty to being the forgotten man whenever my children say to me, "And what did you do when you were our age?" That is exactly why I do not care to write an autobiography. Too many years would have to be omitted.

Recently, I saw a magazine article explaining how suburban children practically grow up fatherless because of commuting and golf, the children almost never see the head of the family. While this may be an exaggeration, the point that the writer of the magazine article wanted to make was that mamma has become the boss of the household and the children live under a matriarchy, which must be awful.

This pamphlet that I am looking at goes along with the magazine article and holds that father has become a "nebulous" figure. It quotes a study which relegates the father to the condition of a "mother substitute" which is something no man ought to be. Of course, when a woman claims that the father of her child is a test-tube, the question arises as to what to call the dame.

There are some startling divorce statistics in this pamphlet. It says that of approximately 400,000 divorces granted in the United States each year, about 72 per cent are decrees granted to wives, who in virtually all cases automatically get possession of the children. About 95 per cent of all divorces are uncontested and most of them are by pre-arrangement. This involves about 300,000 children each year. In most divorces the father gets a raw deal no matter how you look at it. Howard Whitman who made this study then says:

"Investigation of juvenile delinquency, the growing problem of homosexuality, and the already critical problem of emotional disturbance in children, points clearly to the absence of

adequate father influence as a contributing factor."

It is difficult to generalize from personal experience which must necessarily be narrow and restricted. Nevertheless, I know quite a sizeable number of children in broken homes and I think that the comment of Judge Julius H. Miner of the Circuit Court of Illinois, will stand analysis when he says:

"Arrangements for the custody of children among divorced parents are never satisfactory. There is always immeasurable strain upon their paternal affection. Children become surly, non-conforming and ultimately incorrigible. Lack of proper supervision leads them into the path of delinquency and lawlessness."

What is the psychological effect upon a child as it grows up, reads newspapers, hears gossip, and discovers that his mother has had not only two but three or four husbands? Children at one stage believe that their parents are different from others and do not do what others do. Then the child discovers that they do do what others do. Then the child goes through a period of hero-worship of the father, which is something no man ought to be. Of course, when a woman claims that the father of her child is a test-tube, the question arises as to what to call the dame.

Then the child needs father, a sort of big shot who can get things done, but there is no father.

Queer things are said nowadays to disturb human relations. I heard of a physician telling a young boy that no boy over 17 should live at home with a father because the strain is too great. This is dumb advice but springs from the present conception that all stresses and strains are bad and that punishment is evil and competition a vice.

This is an excellent pamphlet for wives and mothers to read, and I assume that it can be obtained from the Kirkbride Fund, 1421 Chestnut Street, Philadelphia, Pa. It ought to be of particular value to such mothers as believe that they are doing their best by their children either by replacing the influence of the father or by divorcing him.

"For the sake of the children" is often a self-serving phrase which excuses an assumption that the husband is little more than a stud and that his influence in the family should be secondary to that of the mother. Children get on to that game fast enough and sooner or later learn to respect neither the father nor the mother.

Pickaway Garden Club Has Dinner At March Meeting

Harold Weaver Presents Lecture

A carry-in dinner was enjoyed by a large number of members, husbands and guests at the March meeting of the Pickaway Garden Club, held in the Presbyterian Church social rooms.

Mr. Harold E. Weaver of Basil, provided the evening's program with a lecture on the culture, diseases and care of roses. He showed a large number of colored slides which vividly illustrated beautiful new rose species, rose show winners, rose gardens, gardening techniques, and close-ups of rose diseases and troublesome insects.

Mr. Weaver said, "Almost any good garden soil will grow nice roses, but for spectacular results and for show specimens you must make special preparations. In starting a new bed, you should take out the soil at least 18 inches deep. The bottom half should be replaced with a mixture of the soil and 50 per cent fertilizer. A small amount of super-phosphate and potash in the bottom is valuable because these will not penetrate over one inch in a year's time if applied on top. The top layer of soil should contain 25 per cent fertilizer mixed with the soil. A moderate amount of peat moss may be added to the mixture, if desired, to lighten the soil. Although you can plant your roses immediately, it is best to prepare this bed several months in advance and let it settle.

"A good root system is more important than the number of canes on new plants. When new plants arrive, it is wise to sprinkle the dormant canes with lime-sulphur before unwrapping the roots. This will check the possibility of introducing black spot from the nursery. Dig a 16-18 inch hole with a solid mound in the center around which to spread the roots. The crown or bud should come about even with the ground level. Fill the hole with soil, pack it well, and soak the ground. Do not put fertilizer directly on the roots and do not fertilize new plants at all until after the first blooming period.

New roses should be protected immediately by hilling the soil up around the canes, even in the Spring. The hill will keep the canes moist and alive until the root system becomes established. The hill can be removed gradually by hand or by flushing with the hose.

"Springtime chores in established gardens will include pruning out weak, broken and dead canes, and paint the ends of the cut stems with a water-soluble asphalt paint or thick shellac to protect against stem-borers. Try to prune always to an outside eye so that new canes will spread outward and leave the center of the plant open for free access of sun and air. You do not want a close, compact plant which will invite disease."

Mr. Weaver then detailed a summer program of fertilizing, spraying, dusting, watering and, if desired, mulching which will keep the rose enthusiast well-occupied. Mr. Weaver was not partial to mulching and does not use it himself although it cuts down on the weeding and watering chores. Mulch may encourage crown gall by keeping the ground too moist and may harbor blackspot spores. Ground corn cobs make about the most satisfactory local mulching material if one is thought necessary.

The lecturer further stated, "In cutting roses for arrangements or show, try not to take more of the stem than down to the second set of 5 leaves and never remove

more than 10 per cent of the plant during the Summer.

"Winter protection is absolutely necessary in this part of the country because the hybrid tea rose is basically a southern rose. Soil should be hilled around the canes to a height of 8-10 inches or the canes will winter-kill back to the crown and you will usually be left with no rose plant in the Spring.

"Your public library has valuable books on rose-growing, and your garden supply store will help you choose the needed dusts and sprays to control insects and diseases."

Mr. Weaver closed his lecture with a question and answer period, and stated that visitors were always welcome at his gardens in Basil.

A short business meeting was conducted by the president, Mrs. Richard Jones, during which she appointed to the nominating committee Mrs. Luther Bower, chairman, Mrs. Russell Clark and Mrs. Leslie May.

Hostesses for the evening were: Mrs. A. J. Lyle, Miss Bertha Warner, Miss Martha Warner, Mrs. Chrissy Duval, Mrs. Mack Noggle, Mrs. Nell Renick, Mrs. H. B. Given and Mrs. E. E. Porter.

Bride-Elect Miss Carolyn Greenlee Feted At Shower

A miscellaneous shower was held in the Mecca Dining Room, honoring Miss Carolyn Ruth Greenlee, bride-elect of Mr. Terry Dean Agin.

Mrs. Dora Hanley, Mrs. Irene Hess, Mrs. Ed Watson and Miss Jan Gallagher were hostesses for the shower. The table where the bride-elect was seated was decorated with a miniature bride and groom on either side of a centerpiece of red and white carnations.

Guests enjoyed playing games. Prizes were awarded to Miss Lucille Redman, Mrs. Gladys Wagner and Mrs. Gerald Doering. Following the contests refreshments were served.

After the honored guest had opened her gifts, Mrs. Doering sang "Stranger In Paradise." She was accompanied by Mrs. Clayton McClone.

Closing the evening's entertainment Miss Greenlee read a poem entitled "How To Preserve a Husband."

Guests for the evening were: the honored guest, the hostesses, Mrs. Gerald Hanley, Mrs. Bertha Betts, Mrs. Robert List, Mrs. Grace Moore, Mrs. Mary Palmer, Mrs. Arthur Toll, Mrs. Gretnel, Mrs. Ralph Hoffman, Mrs. Clifford Coates, Mrs. Florence Manson; Miss Lucille Redman, Miss Patty Redman, Mrs. Fred Redman, Mrs. Harry Redman, Mrs. Ruth Greenlee, Mrs. Gerald Doering, Mrs. Clayton McClone, Miss Sandra Hall, Miss Sally Sampson, Miss Toni Agin, Rose Hardesty, Mrs. Carl Agin, Mrs. Gaylord Greenlee, Mrs. Emmell Hinton, Mrs. Robert Arledge, Mrs. Lewis Cook, Miss Jo-Elaine Greenlee, Miss Genieve Adkins, Mrs. Cliff Hedges and Mrs. Gladys Wagner.

Gifts were sent by: Mrs. William Lockard, Mrs. Francis Palm, The Rameys, Mrs. Mary Pickle, Mrs. Reah Steele, Miss Eloise Hanley, Mrs. William Curry, Mrs. Sally Raymond, Mrs. Gene Lindsey and Miss Janice Coates.

The bride-elect, daughter of Mr. and Mrs. Gaylord Greenlee and Mr. Agin plan to be married in April. Mr. Agin's parents are Mr. and Mrs. Carl Agin.

THURSDAY CIRCLE 2 OF TRINITY LUTHERAN Church, 1:30 p. m., in the home of Mrs. Carl Zehner of 131 E. Mound St. Mrs. Eugene Hanson and Mrs. Lawrence Goeller Sr., assisting. ATLANTA AREA HOMEOWNERS Club, 10 a. m. to 3 p. m., in Atlanta School.

Personals

Mr. and Mrs. Robert Walker, Miss Faye Hollis and Miss Joanne Kerr spent the weekend in Richmond, Va., as guests of Mr. and Mrs. Lee Cook and family and Mr. and Mrs. Earl Brady and daughter. While there they attended the opening of a new Ralston-Purina Company plant.

Mrs. R. M. Leach of Northridge Rd. has returned home from visiting her daughter, Mrs. M. E. Landers and family of Woodland, Calif.

Mrs. Harold Anderson presided at the annual board meeting of the Columbus Group South of the American Lutheran Church, held at Emmanuel Lutheran Church, Columbus. Others attending from Circleville were: Mrs. Robert Moon, Mrs. Christian Schwarz, Mrs. Paul White, Miss Florence Hoffman and Mrs. Richard Penn.

Rice-Brumfield Set Nuptial Date For March 16

Mr. and Mrs. John Rice of 295 Knoles Ave., Chillicothe, are announcing the engagement and approaching marriage of their daughter, Miss Joyce Rice, to Mr. Robert Brumfield, son of Mr. and Mrs. Edwin Brumfield of Circleville Route 1.

The bride-elect is a graduate of Chillicothe High School and is employed at the Savings Bank in Chillicothe.

Mr. Brumfield was graduated from Pickaway Township High School. He is now associated with the C. F. Replodge Company, Circleville.

The wedding will be an event of March 16 in the chapel of Trinity Methodist Church, Chillicothe. The Rev. Harry F. Baker will perform the ceremony.

Meet Postponed

The Circleville Garden Club meeting, scheduled for this Thursday, has been postponed.

The group will meet March 28 at 8 p. m. in the home of Mrs. Orion King of 148 W. High St.

Shower Honors Mr., Mrs. Cilley

Mr. and Mrs. James Cilley were honored at a stork shower in their home. Mrs. Cilley is the former Jeanette Baker, daughter of Mr. and Mrs. Harold Baker.

Decorations consisted of pink and blue streamers, extended from the ceiling to a bassinet, where gifts were placed.

Games were enjoyed by the guests and prizes were awarded to: Miss Martha and Miss Stella Brown, Miss Betty Huffines and Mrs. Donna Jean Nance.

After the honored guest opened her gifts, refreshments were served to the following:

Mrs. Edith Baker, Mrs. Dorothy Ferguson, Mrs. Eula Sowards, Mrs. Elsie Brown and Stella, Janice and Martha, Mrs. Bessie Arnold, Mrs. Ruth Koch, Mrs. Donna Jean Nance, Mrs. Hetty Brown, Miss Betty Huffines, Miss Phyllis Brown, Judy and Eddie Baker and Bobby and Louisa Johnson.

Gifts were sent by: Mrs. Thelma Eitel, Mrs. Nina Brown, Mrs. Betty Bivens and Carolyn, Mrs. Mary Johnson, Mrs. Jean Brown and Mrs. Cora Swank.

Social Happenings

The Circleville Herald Tuesday, Mar. 5, 1957 5 Circleville, Ohio

Holidays' Party Presented By EUB Trailmakers Class

The Trailmakers Class entertained 30 guests at a Holidays' Party. Honored guests were husbands of the members and the Crusaders Class.

The group gathered in the annex of the Calvary Evangelical United Brethren Church. Mrs. Joe Brink, president of the Trailmakers, welcomed the group.

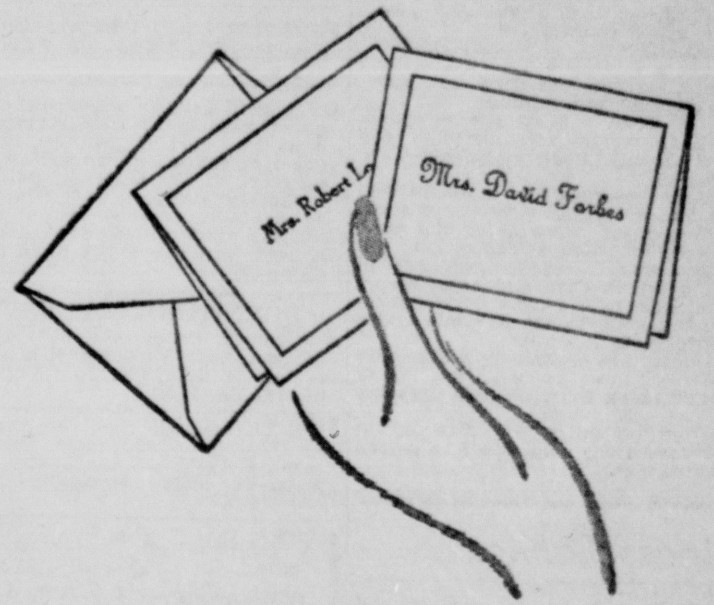

A prayer was offered by class teacher, Mrs. Ida Warner.

"A Tribute to Abraham Lincoln" was given by Mrs. Harry Betz, after which the group sang "America." Mrs. Dale Rough accompanied at the piano.

Mrs. Manley Carothers presented "The Story of George Washington."

Mrs. Andrew Goeller presented a

bles were centered with arrangements of red and white carnations. A dessert course was served by committee members: Mrs. Brink, Mrs. Goeller and Mrs. Betz. Mrs. Dale DeLong received the door prize, which was an angel food cake, baked by Mrs. Darrell Hatfield. Mrs. Hatfield and Mrs. W. C. Shasteen served on the program and games committee.

Tigers Drop Test To Columbus East

Local Five Puts Up Strong Battle Before Losing Tourney Contest

Although Circleville's Tigers lost a 57 to 42 decision to Columbus East last night at Granville, the locals had nothing to be ashamed of for the performance they turned in.

East, one of the stronger teams in the Central District tourney, was forced almost to the limit before downing the stubborn Tigers in a contest which could have gone either way until the waning moments of the battle.

As late as the fourth quarter the Tigers were still very much in the game as East led by a narrow 37 to 42 margin with about six minutes to go.

However, the East cagers, noted for their ability to come through under pressure, opened up in the later part of the final frame to post a decisive victory and the right to appear in the district semi-finals.

THE Tigers' best effort was displayed in the third period when they outscored the winners 14-9. However, this performance was not good enough to overcome damage done in the second quarter when the East cagemen racked up 20 points.

20 points compared to only nine for the locals.

In the first quarter, scoring was fairly even with the period ending 13 to 10 in favor of East.

In the shooting average department, Circleville fired for a 27.7 percent average, making 13 of 47 attempts. East hit 18 out of 61 for 29.5 percent.

The Roundtowners collected 16 of 30 foul shot tries and the winners tallied 21 of 30.

Sandy Martin got the ball rolling for East on a bucket from under, but Big Jon Parcher added two quick baskets and a foul shot to give the Tigers a 5-2 lead.

Mel Nowell, East's scoring ace, then made it 5-4 by hitting two foul tosses. Bob Fraser ran this to 6-4 on a foul shot but Nowell tallied for the opponents to knot things at six all.

AFTER this, the East cagers went out in front where they stayed the remainder of the game.

The second quarter proved costly for the Tigers as East suddenly got hot to rack up 20 points in that period while holding the CHS cagers to nine, the halftime score showing East 33, Circleville 19. Half of East's tallies came via the free throw line.

Circleville staged a comeback in the second half that came within seven points of knotting the score several times. The Tigers' scoring in this frame was paced by Fraser with five, Johnson four, Krinn three and Parcher two.

Shortly after the final quarter got underway, Mike Hosler tallied on a drive-in and Johnson added a tip to cut East's lead to 42-37. That was as close as the Tigers could come to deadlocking the score with the powerful Columbus squad.

Fraser was high for Circleville with 12 points, collected on 10 free throws and one basket. Parcher came through with four buckets and three foul shots for 11 counters.

High-scoring Bill Johnson was held to eight points, Krinn registered five, Hosler four and Dick Banks two.

NOWELL gained scoring honors for the winners with 22 points. Martin recorded 12 and Howard Brooks had eight.

Local Five Drops Tilt At Reformatory

Circleville DeMolay cagers dropped an overtime sudden death 101-99 contest, to a Federal Reformatory team at Chillicothe last night.

Regulation play ended in a 92-92 deadlock. At the end of the overtime the score was knotted at 99 to 99. However, the Reformatory squad got a quick bucket in the sudden death to gain the victory. Martin was high for the locals with 33 points and Teammate Riegel had 30.

White was high for the winners with 29 tallies and Ryan had 18.

Ted Williams Practicing Hard

SARASOTA, Fla. (AP) — Ted Williams, the 38-year-old Boston Red Sox slugger, is hustling as never before in spring training.

Ted has been setting a terrific pace for the younger ball players and is amazing observers who know his distaste for the pre-season "grind."

After rain forced Ted to retire after a pepper game Monday he took long turns indoors at weight-lifting and pushups.

"He knows the competition is getting keen as he gets older," trainer Jack Fadden said of Williams. "And he isn't taking any chances of slipping. He's a very proud guy. He wants to be at his best when he steps up to the plate."

Brooks Worrying About Newcombe

VERO BEACH, Fla. (AP) — The entire Brooklyn camp was holding its collective breath today wondering just how badly ace pitcher Don Newcombe had injured his arm.

The towering 27-game winner twisted his elbow making a hurried throw to second base during pickoff practice Monday. Ten minutes later he abruptly left the mound because, he said, the arm was bothering him.

"He will have to rest and take heat treatments," said Harold (Doc) Wendler, Brooklyn trainer. "There's no way of telling how long he will be out. We'll have to wait and see how much it tightens up. It could mean trouble though."

Tebbetts To Use His Rookie Hurlers

TAMPA, Fla. (AP) — Manager Birdie Tebbetts plans to put his two bonus rookies in as many exhibition games as possible.

They're Bob Henrich, 6-foot-1 Compton, Calif., infielder, and Don Pavletich, righthanded catcher from West Allis, Wis.

"I've got to see if they can hit big league pitching," Tebbetts said after Monday's workout was rained out. "Both appear to have big league swings and ought to be good hitters. But I wonder if they can help this year."

Big Ten Cage Title Shared By 2 Outfits

Indiana, Michigan State End Season Deadlocked As Spartans Stumble

By THE ASSOCIATED PRESS

Indiana gained its revenge and Michigan State didn't. As a result the two teams share the title, in one of the daffiest Big Ten basketball races in history.

Michigan State fell before arch-rival Michigan, 81-72, and Indiana avenged its most humiliating defeat of the season Monday night by whipping Illinois, 84-76. Ohio State, which also could have grabbed a share of the crown, was forced to settle for a third place tie with Minnesota by dropping a 76-69 decision to the Gophers.

Michigan State goes to the NCAA championships because Indiana had last represented the Big Ten in 1954.

Wisconsin stumbled out of the Big Ten cellar with an 82-69 victory over Northwestern and Purdue finished in a tie for fifth by beating Iowa 72-63.

As expected, all of the home teams were victorious. Only one game remains in Big Ten activity and that'll be played before a regional television audience Saturday afternoon with Wisconsin at Iowa.

Michigan State, riding a 10-game winning streak after three initial losses, went to Ann Arbor to avenge an earlier 70-69 loss to Michigan. But the Spartans were never in the running as Michigan took a 52-34 halftime lead and coasted into a fifth-place tie with Purdue.

Ron Kramer, Michigan's remarkable athlete, ended his college cage career with 21 points to lead the Wolverines. Larry Hedden was tops for Michigan State with 20.

Indiana, defeated earlier by Illinois, 112-91, came from behind in the second half to tumble the Illini to their first second division finish in 13 years.

Illinois held a 41-35 halftime lead but the Hoosiers finished

Arizin Sets Pace For Pro Cagers

NEW YORK (AP) — Philadelphia's Paul Arizin today was leading a closely bunched pack in the National Basketball Assn. individual scoring race.

Arizin, scoring 107 points in four games last week, moved out to a 26-point advantage over the injured Bob Pettit of St. Louis. Arizin has amassed 1,693 points for a 25.7 average while Pettit has totalled 1,667 for a 25.3 mark.

Pettit, the 6-9 former Louisiana State University star and defending champion, was held to 16 points in five games last week.

with five players scoring in double figures as Archie Dees, the Big Ten's "Big Man" led all scorers with 25 points. Harv Schmidt topped Illinois with 22.

Ohio State had to settle for a third-place tie rather than a share of the crown mainly because of Minnesota's free-throw accuracy. The Bucks topped the Gophers from the field, 27 goals to 26, but Minnesota canned 24 of 34 free throws while OSU could only hit 15 of 26.

Wisconsin yielded the cellar for the first time this year, exchanging places with Northwestern. However, the Badgers will have to beat Iowa Saturday or finish in a tie with Northwestern.

Major Shakeup Now Brews In Chicago Cubs' Camp

MESA, Ariz. (AP) — When new manager Bob Scheffing said none of the Chicago Cubs was sure of his job, he meant it, even to nudging one of the best shortstops in the majors, Ernie Banks, to a new position.

Scheffing said today that Banks, who holds the big league home run record for shortstops at 44, may wind up at first or third base if ex-collegian Gerry Kindall can make the grade at shortstop.

"I feel that if a man can play shortstop well, he can play any place in the infield," Scheffing said of Banks, whose .297 batting average led the Cubs last season for the second straight year.

This puts three men on the spot. Kindall, a 6-foot-2 1/2 star of the University of Minnesota's NCAA champions, has to prove he can hit major league pitching. He led the Big Ten last spring with a .440 mark.

"College ball isn't the big leagues," said Scheffing, "but

don't forget that men like Harvey Kuenn, who went from Wisconsin to the Detroit Tigers, and Bill Skowron, who made it with the New York Yankees from Purdue. They proved the jump could be made."

Kindall, however, has no minor league seasoning.

The other two players on the spot in the projected switch of Banks to first or third are veteran first sacker Dee Fondy and Ray Jablonski, the well-traveled third baseman acquired from the Cincinnati Redlegs.

Fondy, batted .269 last season—not much better than his .265 in 1955 when he began a puzzling slump from a .300 pace the previous three seasons.

Jablonski brings a potentially heavy bat to the third base post, which lacked any real batting authority last season when light-hitting Don Hoak occupied the job most of the time.

But Jabbo, a .256 hitter with 66 RBI's at Cincinnati last season, has to fend off George Freese, up from the Angels, perhaps Banks and second baseman Gene Baker as well.

Tigers Drop Test To Columbus East

Local Five Puts Up Strong Battle Before Losing Tourney Contest

Although Circleville's Tigers lost a 57 to 42 decision to Columbus East last night at Granville, the locals had nothing to be ashamed of for the performance they turned in.

East, one of the stronger teams in the Central District tourney, was forced almost to the limit before downing the stubborn Tigers in a contest which could have gone either way until the waning moments of the battle.

As late as the fourth quarter the Tigers were still very much in the game as East led by a narrow 37 to 42 margin with about six minutes to go.

However, the East cagers, noted for their ability to come through under pressure, opened up in the later part of the final frame to post a decisive victory and the right to appear in the district semi-finals.

THE Tigers' best effort was displayed in the third period when they outscored the winners 14-9. However, this performance was not good enough to overcome damage done in the second quarter when the East cagers racked up 24 points.

20 points compared to only nine for the locals.

In the first quarter, scoring was fairly even with the period ending 13 to 10 in favor of East.

In the shooting average department, Circleville fired for a 27.7 percent average, making 13 of 47 attempts. East hit 18 out of 61 for 29.5 percent.

The Roundtowners collected 16 of 30 foul shot tries and the winners tallied 21 of 30.

Sandy Martin got the ball rolling for East on a bucket from under, but Big Jon Pacher added two quick baskets and a foul shot to give the Tigers a 5-2 lead.

Mel Nowell, East's scoring ace, then made it 5-4 by hitting two foul tosses. Bob Fraser ran this to 6-4 on a foul shot but Nowell tallied for the opponents to knot things at six all.

After this, the East cagers went out in front where they stayed the remainder of the game.

The second quarter proved costly for the Tigers — East suddenly got hot to rack up 20 points in that period while holding the CHS cagers to nine, the halftime score showing East 33, Circleville 19. Half of East's tallies came via the free throw line.

Circleville staged a comeback in the second half that came within seven points of knotting the score several times. The Tigers' scoring in this frame was paced by Fraser with five, Johnson four, Krinn three and Pacher two.

Shortly after the final quarter got underway, Mike Hosler tallied on a drive-in and Johnson added a tip to cut East's lead to 42-37. That was as close as the Tigers could come to deadlocking the score with the powerful Columbus squad.

Fraser was high for Circleville with 12 points, collected on 10 free throws and one basket. Pacher came through with four buckets and three foul shots for 11 counters.

High-scoring Bill Johnson was held to eight points, Krinn registered five, Hosler four and Dick Banks two.

NOWELL gained scoring honors for the winners with 22 points. Martin recorded 12 and Howard Brooks had eight.

Local Five Drops Tilt At Reformatory

Circleville DeMolay cagers dropped an overtime sudden death 101-99 contest, to a Federal Reformatory team at Chillicothe last night.

Regulation play ended in a 92-92 deadlock. At the end of the overtime the score was knotted at 99 to 99. However, the Reformatory squad got a quick bucket in the sudden death to gain the victory.

Martin was high for the locals with 33 points and Teammate Riegel had 30.

White was high for the winners with 29 tallies and Ryan had 18.

Ted Williams Practicing Hard

SARASOTA, Fla. (AP) — Ted Williams, the 38-year-old Boston Red Sox slugger, is hustling as never before in spring training.

Ted has been setting a terrific pace for the younger ball players and is amazing observers who know his distaste for the pre-season "grind."

After rain forced Ted to retire after a pepper game Monday he took long turns indoors at weightlifting and pushups.

"He knows the competition is getting keen as he gets older," trainer Jack Fadden said of Williams. "And he isn't taking any chances of slipping. He's a very proud guy. He wants to be at his best when he steps up to the plate."

Brooks Worrying About Newcombe

VERO BEACH, Fla. (AP) — The entire Brooklyn camp was holding its collective breath today wondering just how badly ace pitcher Don Newcombe had injured his arm.

The towering 27-game winner twisted his elbow making a hurried throw to second base during pickoff practice Monday. Ten minutes later he abruptly left the mound because, he said, the arm was bothering him.

"He will have to rest and take heat treatments," said Harold (Doc) Wendler, Brooklyn trainer. "There's no way of telling how long he will be out. We'll have to wait and see how much it tightens up. It could mean trouble though."

Tebbetts To Use His Rookie Hurlers

TAMPA, Fla. (AP) — Manager Birdie Tebbetts plans to put his two bonus rookies in as many exhibition games as possible.

They're Bob Henrich, 6-foot-1 Compton, Calif., infielder, and Don Pavletich, righthanded catcher from West Allis, Wis.

"I've got to see if they can hit big league pitching," Tebbetts said after Monday's workout was rained out. "Both appear to have big league swings and ought to be good hitters. Buu I wonder if they can help this year."

Big Ten Cage Title Shared By 2 Outfits

Indiana, Michigan State End Season Deadlocked As Spartans Stumble

By THE ASSOCIATED PRESS
Indiana gained its revenge and Michigan State didn't. As a result the two teams share the title, in one of the daffiest Big Ten basketball races in history.

Michigan State fell before arch-rival Michigan, 81-72, and Indiana avenged its most humiliating defeat of the season Monday night by whipping Illinois, 84-76. Ohio State, which also could have grabbed a share of the crown, was forced to settle for a third place tie with Minnesota by dropping a 76-69 decision to the Gophers.

Michigan State goes to the NCAA championships because Indiana had last represented the Big Ten in 1954.

Wisconsin stumbled out of the Big Ten cellar with an 82-69 victory over Northwestern and Purdue finished in a tie for fifth by beating Iowa 72-63.

As expected, all of the home teams were victorious. Only one game remains in Big Ten activity and that'll be played before a regional television audience Saturday afternoon with Wisconsin at Iowa.

Michigan State, riding a 10-game winning streak after three initial losses, went to Ann Arbor to avenge an earlier 70-69 loss to Michigan. But the Spartans were never in the running as Michigan took a 52-34 halftime lead and coasted into a fifth-place tie with Purdue.

Ron Kramer, Michigan's remarkable athlete, ended his college cage career with 21 points to lead the Wolverines. Larry Hedder was tops for Michigan State with 20.

Indiana, defeated earlier by Illinois, 112-91, came from behind in the second half to tumble the Illini to their first second division finish in 13 years.

Illinois held a 41-35 halftime lead but the Hoosiers finished

Arizin Sets Pace For Pro Cagers

NEW YORK (AP) — Philadelphia's Paul Arizin today was leading a closely bunched pack in the National Basketball Assn. individual scoring race.

Arizin, scoring 107 points in four games last week, moved out to a 26-point advantage over the injured Bob Pettit of St. Louis. Arizin has amassed 1,693 points for a 25.7 average while Pettit has totaled 1,667 for a 25.3 mark.

Pettit, the 6-9 former Louisiana State University star and defending champion, was held to 16 points in five games last week.

With five players scoring in double figures as Archie Dees, the Big Ten's "Big Man" led all scorers with 25 points. Harv Schmidt topped Illinois with 22.

Ohio State had to settle for a third-place tie rather than a share of the crown mainly because of Minnesota's free-throw accuracy. The Bucks topped the Gophers from the field, 27 goals to 25, but Minnesota ousted 24 of 34 free throws while OSU could only hit on 15 of 26.

Wisconsin yielded the cellar for the first time this year, exchanging places with Northwestern. However, the Badgers will have to beat Iowa Saturday or finish in a tie with Northwestern.

Dees Is Winner Of Big Ten Race

CHICAGO (AP) — Indiana's Archie Dees won the Big Ten all-games basketball scoring title in a breeze outdistancing his nearest opponent by more than 100 points.

Dees compiled a 25-point average with 550 points in 22 games while Frank Howard of Ohio State finished second with 442 points in 22 games for a 20-point average.

Third was Illinois' Harv Schmidt

Major Shakeup Now Brews In Chicago Cubs' Camp

MESA, Ariz. (AP) — When new manager Bob Scheffing said none of the Chicago Cubs was sure of his job, he meant it, even nudging one of the best shortstops in the majors, Ernie Banks, to a new position.

Scheffing said today that Banks, who holds the big league home run record for shortstops at 44, may wind up at first or third base if ex-colleague Gerry Kindall can make the grade at shortstop.

"I feel that if a man can play shortstop well, he can play any place in the infield," Scheffing said of Banks, whose .297 batting average led the Cubs last season for the second straight year.

This puts three men on the spot. Kindall, a 6-foot-2 1/2 star of the University of Minnesota's NCAA champions, has to prove he can hit major league pitching. He led the Big Ten last spring with a .440 mark.

"College ball isn't the big leagues," said Scheffing, "but

don't forget that men like Harvey Kuenn, who went from Wisconsin to the Detroit Tigers, and Bill Skowron, who made it with the New York Yankees from Purdue. They proved the jump could be made."

Kindall, however, has no minor league seasoning.

The other two players on the spot in the projected switch of Banks to first or third are veteran first sacker Dee Fondy and Ray Jablonski, the well-traveled third baseman acquired from the Cincinnati Redlegs.

Fondy, batted .269 last season—not much better than his .265 in 1955 when he began a puzzling slump from a .300 pace the previous three seasons.

Jablonski brings a potentially heavy bat to the third base post, which lacked any real batting authority last season when lightning Don Hoak occupied the job most of the time.

But Jabbo, a .256 hitter with 66 RBI's at Cincinnati last season, has to fend off George Freese, up from the Angels, perhaps Banks and second baseman Gene Baker as well.

Area Farmers Plan To Conduct Annual Beef Tour On Thursday

Pickaway County's annual beef tour and program is scheduled to get underway Thursday, according to George Hamrick, local county agricultural agent.

The tour will start promptly at 9:30 a. m. Those participating will tour five county farms on a time schedule that has already been set up. The stops and activity at each are as follows:

9:30 a. m.—D. A. Marshall and sons farm, Circleville - Tarlton Northern Rd.; observe 144 head of heavy Montana cattle, an endless chain, with silage bunk in use.

10 a. m.—Robert Jones farm, Hayesville-Adelphi Rd.; observe 40-cow purebred Angus herd on hay ration with no grain.

10:30 a. m.—Clarence Maxson and son farm, just south of Hayesville-Adelphi Rd. near Laurelville; observe registered hereford herd.

11 a. m.—William Defenbaugh farm, Tarlton-Adelphi Rd. south of

Tarlton; observe feeding habits of about 200 head of cattle from New Mexico.

11:30 a. m.—Arnold Reichelderfer farm, west of Tarlton on Route 159; observe three lots of cattle, one from Colorado and two native.

LUNCH WILL be served at 12 noon in the basement of the Tarlton Methodist Church. Persons desiring to eat with the group are asked to contact the local extension office.

At 1 p. m., the group will observe a beef cut-out demonstration in the church presented by Robert Havener, extension meat specialist at Ohio State University. He will explain the hows and whys of pricing beef cuts and what housewives demand on the market. Ladies are invited to attend this session.

James H. Warner, extension beef specialist at Ohio State will also be present for the tour. In the afternoon he will present views and essential requirements on the beef business.

Hamrick pointed out that the tour is expected to draw quite a bit of interest here in that Pickaway County ranks third in the state in beef cash sales.

Major Obstacles In Suez Removed

SUEZ, Egypt — The U. N. salvage fleet has removed one of the last two major obstructions blocking passage of 10,000-ton ships through the Suez Canal.

Hauled up was a big bucket dredger from the Suez end of the waterway.

The final obstruction to be taken out in the initial phase of canal clearance is the sunken tug Edgar Bonnet. The Egyptian government has not yet given permission to start work on the tug. Egyptian officials say explosives aboard the sunken vessel must first be removed.

General Motors Asks For Permit

AKRON — Hudson Township trustees Monday night received a check for \$5,000 from representatives of the General Motors Corp. for a permit to build a factory for the firm's Euclid division on Ohio 91 south of the village of Hudson.

Groundbreaking for the plant is scheduled March 27. Euclid personnel director Wade White said 1,300 persons would be employed soon after the manufacturing plant is completed in summer 1958 and 5,000 later.

Store Proprietor's Feet Hide Horde

MARIETTA — Two gunmen robbed Sam Taylor's drug store at Beverly Tuesday and escaped with \$100, but the pair missed \$800 that the proprietor was standing on.

The two men entered the store just as Taylor had filled a pocketbook with \$800 taken from the cash register. He dropped the pocketbook accidentally, but stepped on it when the thugs flashed a gun.

The pair then cleaned out the register, which had \$100, but did not notice the pocketbook that Taylor was standing on.

U.S., Canada Plan Seaway Conference

WASHINGTON — U. S. and Canadian officials meet this week to talk more about tolls to be charged ships that will use the St. Lawrence Seaway, scheduled for completion early in 1959.

The meeting will be held here Thursday and Friday. In addition to tolls, the conferees will discuss the size of ships that will use locks on the 27-foot-deep international waterway.

Host for the two-day discussion is Administrator Lewis G. Castle of the St. Lawrence Seaway Development Corp., the agency created by Congress to construct and administer the U. S. portion.

Hit-Skip Driver Faces Sentence

COLUMBUS — Andrew Edwards, 27, Columbus, faces six months in jail for the hit-skip auto death of Mrs. Ellen Galvin, 67, also of Columbus.

Municipal Judge Dean Strausbaugh fined Edwards \$200 and suspended his driver's license for three years. After Edwards was convicted Monday of leaving the scene of the accident.

Fremont Educator Resigns Position

FREMONT — Allen E. Rupp, superintendent of Fremont schools since 1953, has resigned to accept an appointment from Ohio Gov. C. William O'Neill.

Rupp said the nature of his new

Higher Pay Ruling Made By Attorney

COLUMBUS, Ohio — Appointive state officials can draw the higher salaries voted recently by the Legislature, Atty. Gen. William Saxbe ruled today.

The opinion answered a question raised by Auditor James A. Rhodes.

Saxbe said that a constitutional ban against an officer receiving a pay increase during his existing term does not apply to those serving "at the pleasure of the governor" or to hold-overs whose terms expired.

The attorney general held in effect that tenure at the pleasure of the governor "or after the expiration of the term was not an 'existing term' within the meaning of the state constitution.

Rhodes said that as a result of the ruling William C. Bryant could draw the higher salary for the office of state liquor director between Jan. 14 when the Legislature increased the pay of appointive officials and Jan. 20 when Bryant resigned to become an Appellate Court judge.

The legislative increase boosted the liquor director's salary from \$12,000 to \$18,000 a year. The Legislature also increased salaries of appointive state officials about \$6,000 a year.

appointment would be announced later. His resignation, submitted to the board of education, is effective June 15.

Rupp was O'Neill's debate coach at Marietta High School.

Bedford Police Force Is Accused

CLEVELAND — Nick Renko, 33, Bedford, named the entire police force of Bedford in a suit asking \$70,000 for injuries and \$30,000 for false arrest in connection with his arrest following an automobile accident Feb. 8.

Renko, who filed the action in common pleas court Monday, charged he was beaten by police before being jailed. His attorney said the entire police force was named because he was unable to obtain names of policemen involved. Renko is scheduled to appear in Bedford Municipal Court Wednesday on charges of disorderly conduct and resisting arrest.

2 Ex-Postmasters Indicted By Jury

DAYTON — Keith W. Lower, former postmaster at Buckeye Lake, and Blanche L. Geiger, former postmaster at Lakeview, were indicted on charges of embezzlement and embezzlement from the mails by a federal grand jury here Monday.

The grand jury also indicted Donald R. Butch on one count of armed robbery for the \$14,509 holdup of the First National Bank at Mount Gilead Feb. 1; and indicted Dr. George C. Redrow of

Can Of Beer Is Center Of Law Dispute

AKRON, Ohio — How much alcohol does a can of beer contain?

That is a question that Municipal Judge J. L. Tweed of Cuyahoga Falls must decide.

The question was raised Monday in the trial of Mrs. Alma E. Sawan, a waitress in a Cuyahoga Falls restaurant, who is charged with selling "high powered" beer to a 19-year-old youth.

David Sanders, assistant city solicitor, citing a state law which prohibits sale of intoxicants to persons under 21, said the label on the can of beer sold the youth said its alcoholic content was at least 3.2 per cent and not more than 7 per cent.

He argued that 3.2 per cent would make the beer an intoxicating beverage under the law.

Defense attorney Edward Krutzel contended that the printed label was not admissible evidence. He argued that the alcoholic content could not be determined without analyzing the beer.

Judge Tweed said he would rule Friday.

Columbus on five counts of income tax evasion.

Boy, 16, Wounded By Police Bullet

CINCINNATI — Police said a bullet fired by a patrolman grazed both legs of a 16-year-old boy who, they said, admitted stealing candy from a baking firm. Officers said patrolman Otis Owens fired at two youths he saw fleeing from the firm, where a break-in had been reported a few minutes earlier.

A 15-year-old youth, arrested with the injured boy, told police he acted as lookout while the other youth entered the building. The stolen candy was valued at \$2.40. Officers said the wounded boy was treated at General Hospital, then released to police.

Area Farmers Plan To Conduct Annual Beef Tour On Thursday

Pickaway County's annual beef tour and program is scheduled to get underway Thursday, according to George Hamrick, local county agricultural agent.

The tour will start promptly at 9:30 a. m. Those participating will tour five county farms on a time schedule that has already been set up. The stops and activity at each are as follows:

9:30 a. m.—D. A. Marshall and sons farm, Circleville - Tarlton Northern Rd.; observe 144 head of heavy Montana cattle, an endless chain, with silage bunk in use.

10 a. m.—Robert Jones farm, Hayesville-Adelphi Rd.; observe 40-cow purebred Angus herd on hay ration with no grain.

10:30 a. m.—Clarence Maxson and son farm, just south of Hayesville-Adelphi Rd. near Laurelville; observe registered hereford herd.

11 a. m.—William Defenbaugh farm, Tarlton-Adelphi Rd. south of

Tarlton; observe feeding habits of about 200 head of cattle from New Mexico.

11:30 a. m.—Arnold Reichelderfer farm, west of Tarlton on Route 159; observe three lots of cattle, one from Colorado and two native.

LUNCH WILL be served at 12 noon in the basement of the Tarlton Methodist Church. Persons desiring to eat with the group are asked to contact the local extension office.

At 1 p. m., the group will observe a beef cut-out demonstration in the church presented by Robert Havener, extension meat specialist at Ohio State University. He will explain the hows and whys of pricing beef cuts and what housewives demand on the market. Ladies are invited to attend this session.

James H. Warner, extension beef specialist at Ohio State will also be present for the tour. In the afternoon he will present views and essential requirements on the beef business.

Hamrick pointed out that the tour is expected to draw quite a bit of interest here in that Pickaway County ranks third in the state in beef cash sales.

County Residents' Income Tax Eyed

TOLEDO (AP)—A bill introduced in the Ohio General Assembly would permit residents of Ohio counties to vote a payroll income tax on themselves.

Similar to one that lost in committee two years ago, the bill is sponsored by the Ohio County Commissioners' Assn. It would provide for a maximum tax of one per cent for four years.

Ray Gedert, president of the Lucas County Board of Commissioners, said that in counties like Lucas, where municipalities already have payroll taxes, the legislation would apply only to those living and working outside the municipal limits.

U.S., Canada Plan Seaway Conference

WASHINGTON (AP)—U. S. and Canadian officials meet this week to talk more about tolls to be charged ships that will use the St. Lawrence Seaway, scheduled for completion early in 1959.

The meeting will be held here Thursday and Friday. In addition to tolls, the conferees will discuss the size of ships that will use locks on the 27-foot-deep international waterway.

Host for the two-day discussion is Administrator Lewis G. Castle of the St. Lawrence Seaway Development Corp., the agency created by Congress to construct and administer the U. S. portion.

Hit-Skip Driver Faces Sentence

COLUMBUS (AP)—Andrew Edwards, 27, Columbus, faces six months in jail for the hit-skip auto death of Mrs. Ellen Galvin, 67, also of Columbus.

Municipal Judge Dean Strausbaugh fined Edwards \$200 and suspended his driver's license for three years, after Edwards was convicted Monday of leaving the scene of the accident.

Fremont Educator Resigns Position

FREMONT (AP)—Allen E. Rupp, superintendent of Fremont schools since 1953, has resigned to accept an appointment from Ohio Gov. C. William O'Neill.

Rupp said the nature of his new

Higher Pay Ruling Made By Attorney

COLUMBUS, Ohio (AP)—Appointive state officials can draw the higher salaries voted recently by the Legislature, Atty. Gen. William Saxbe ruled today.

The opinion answered a question raised by Auditor James A. Rhodes.

Saxbe said that a constitutional ban against an officer receiving a pay increase during his existing term does not apply to those serving "at the pleasure of the governor" or to hold-overs whose terms expired.

The attorney general held in effect that tenure at the pleasure of the governor "or after the expiration of the term was not an 'existing term' within the meaning of the state constitution.

Rhodes said that as a result of the ruling William C. Bryant could draw the higher salary for the office of state liquor director between Jan. 14 when the Legislature increased the pay of appointive officials and Jan. 20 when Bryant resigned to become an Appellate Court judge.

The legislative increase boosted the liquor director's salary from \$12,000 to \$18,000 a year. The Legislature also increased salaries of appointive state officials about \$6,000 a year.

appointment would be announced later. His resignation, submitted to the board of education, is effective June 15.

Rupp was O'Neill's debate coach at Marietta High School.

Bedford Police Force Is Accused

CLEVELAND (AP)—Nick Renko, 33, Bedford, named the entire police force of Bedford in a suit asking \$70,000 for injuries and \$30,000 for false arrest in connection with his arrest following an automobile accident Feb. 8.

Renko, who filed the action in common pleas court Monday, charged he was beaten by police before being jailed. His attorney said the entire police force was named because he was unable to obtain names of policemen involved. Renko is scheduled to appear in Bedford Municipal Court Wednesday on charges of disorderly conduct and resisting arrest.

2 Ex-Postmasters Indicted By Jury

DAYTON (AP)—Keith W. Lower, former postmaster at Buckeye Lake, and Blanche L. Geiger, former postmaster at Lakeview, were indicted on charges of embezzlement and embezzlement from the mails by a federal grand jury here Monday.

The grand jury also indicted Donald R. Butch on one count of armed robbery for the \$14,509 holdup of the First National Bank at Mount Gilead Feb. 1; and indicted Dr. George C. Redrow of

Can Of Beer Is Center Of Law Dispute

AKRON, Ohio (AP)—How much alcohol does a can of beer contain?

That is a question that Municipal Judge J. L. Tweed of Cuyahoga Falls must decide.

The question was raised Monday in the trial of Mrs. Alma E. Sawa, a waitress in a Cuyahoga Falls restaurant, who is charged with selling "high powered" beer to a 19-year-old youth.

David Sanders, assistant city solicitor, citing a state law which prohibits sale of intoxicants to persons under 21, said the label on the can of beer sold the youth said its alcoholic content was at least 3.2 per cent and not more than 7 per cent.

He argued that 3.2 per cent would make the beer an intoxicating beverage under the law.

Defense attorney Edward Krutzel contended that the printed label was not admissible evidence. He argued that the alcoholic content could not be determined without analyzing the beer.

Judge Tweed said he would rule Friday.

Columbus on five counts of income tax evasion.

Boy, 16, Wounded By Police Bullet

CINCINNATI (AP)—Police said a bullet fired by a patrolman grazed both legs of a 16-year-old boy who, they said, admitted stealing candy from a baking firm. Officers said patrolman Otis Owens fired at two youths he saw fleeing from the firm, where a break-in had been reported a few minutes earlier.

A 15-year-old youth, arrested with the injured boy, told police he acted as lookout while the other youth entered the building. The stolen candy was valued at \$2.40. Officers said the wounded boy was treated at General Hospital, then released to police.

Major Obstacles In Suez Removed

SUEZ, Egypt (AP)—The U. N. salvage fleet has removed one of the last two major obstructions blocking passage of 10,000-ton ships through the Suez Canal.

Hauled up was a big bucket dredger from the Suez end of the waterway.

The final obstruction to be taken out in the initial phase of canal clearance is the sunken tug Edgar Bonnet. The Egyptian government has not yet given permission to start work on the tug.

Egyptian officials say explosives aboard the sunken vessel must first be removed.

General Motors Asks For Permit

AKRON (AP)—Hudson Township trustees Monday night received a check for \$5,000 from representatives of the General Motors Corp. for a permit to build a factory for the firm's Euclid division on Ohio 91 south of the village of Hudson.

Groundbreaking for the plant is scheduled March 27. Euclid personnel director Wade White said 1,300 persons would be employed soon after the manufacturing plant is completed in summer 1958 and 5,000 later.

Store Proprietor's Feet Hide Horde

MARIETTA (AP)—Two gunmen robbed Sam Taylor's drug store at Beverly Tuesday and escaped with \$100, but the pair missed \$800 that the proprietor was standing on.

The two men entered the store just as Taylor had filled a pocketbook with \$800 taken from the cash register. He dropped the pocketbook accidentally, but stepped on it when the thugs flashed a gun.

The pair then cleaned out the register, which had \$100, but did not notice the pocketbook that Taylor was standing on.
